

DESCRIPTION

Simplicity combined with elegant materials creates a table that adds refinement to your terrace. The floating top of the T-table comes in a choice of durably harvested teak, subtle ceramic or handcrafted glazed lava stone. This elegant table allows maximum leg movement when seated around its circular base, which rises seamlessly into a round, powdercoated stainless steel tube. Available in various dimensions and table heights, the versatile T-table offers a solution for every need.

MATERIALS

- Frame: 304 stainless steel, powdercoated with a durable polyester coating
- Table top: plantation teak from East-Java
ceramic
handcrafted glazed lava stone

T-TABLE

PROTECTION COVERS

For each item a cover is available that protects the furniture against dirt. These covers in grey colour are made of PU coated polyester which is water-repellent and UV-resistant. Thanks to their excellent breathable qualities the covers reduce condensation and heat build-up, helping to prevent the formation of mold and mildew. Always make sure that your furniture and your covers are completely dry and clean before using the covers. As they are not 100% waterproof, a combination of moisture and stains (from food, leaves, etc) could cause mould stains.

MAINTENANCE

Frame

Clean the powdercoated frame with tap water and a PH neutral soap. For stubborn stains, use Aluminium Cleaner. We advise to use Teflon® Protector twice a year which applies an invisible film and protects the aluminium against the adhesion of dirt.

D9952
Aluminium
Cleaner

D9930
Teflon® Protector
(spray that lays an invisible dirt-repellent film)

Table top Teak

Treat new teak with Teak Protector 4 à 6 weeks after installation. Teak Protector applies an invisible film that prevents stains and green deposit. Soiled teak can be cleaned with Teak Super Cleaner. Leave the furniture to dry completely and then apply Teak Protector. To avoid labour-intensive cleaning, you can treat the wood with Teak Sealer. A simple cleaning with water and a ph-neutral soap will do for many years. Teak Sealer contains UV protection to slow down the graying from the sun as well as a fungicide to prevent the growth of mold and mildew.

D9914
Teak Super
Cleaner

D9912
Teak Protector

D9959
Teak Sealer

Table top Ceramic

Ceramic is very easy to maintain with clear water and a pH-neutral soap. Stubborn stains can be removed with Glass & Ceramic Cleaner. To protect the ceramic, Ceramic Protector can be used. This applies a highly water and soiling repellent coating, which also makes the surface brighter, smoother and easier to clean.

Table top Lavastone

Glazed lava stone is easy to maintain with clean water and a pH neutral liquid detergent. Possible stains can be removed with Glass & Ceramic Cleaner. To protect the surface we recommend Ceramic Protector which fills the micro pores so dirt particles won't attach to the surface and will be rain-washed.
