

DUO MAXI

DUO MINI

EXPLICACION DEL MODELO

DUO. Dos familias en una: MINI & MAXI

Estético y muy funcional, este básico en nuestro catálogo es un diseño de **Rafa García**. El diseñador reinterpreta con audacia esta creación para actualizarlo con dos versiones más contemporáneas. **Duo Mini & Duo Maxi** son la nueva propuesta definida para satisfacer las necesidades de diferentes espacios, bien domésticos o colectivos.

Su carácter modular le confiere una identidad flexible y versátil, especialmente gracias a las nuevas medidas. La diferencia entre **Mini & Maxi** es el fondo de su asiento y la modulación disponible. Además, para que cada uno de los módulos pueda usarse de forma independiente, hemos perfilado sus acabados a todos los niveles, porque cada pequeño detalle cuenta.

En la versión **Mini**, las reducidas dimensiones y la sencillez de la modularidad disponible facilitan el amueblamiento de espacios recogidos y compactos, propios de las grandes ciudades. Estos pueden funcionar sueltos a modo de silloncito.

Por otra parte, la versión **Maxi** propone ampliar el ancho de algunos módulos para obtener sofás de una sola pieza con generosas dimensiones. Su modulación es extensa e incluye módulos con brazo o sin brazo, módulos terminales, angulares y un puf que, articulados de forma variada, hacen posibles configuraciones casi infinitas, ideales para espacios públicos. También cabe destacar como novedad la posibilidad de realizar composiciones curvadas.

La amplia sentada de **Duo Maxi** permite jugar con cojines de decoración e, incluso, incorporar almohadones de respaldo extra.

Sus patas quedan ocultas, haciendo que su voluminosa silueta parezca flotar con ligereza sobre el suelo.

DESCRIPTION

DUO. Two families in one: MINI & MAXI

Both aesthetic and highly functional, the Duo by **Rafa García** has been a staple in our catalogue since 2004. Eighteen years later, the designer has boldly reinterpreted his creation, replacing it with **Duo Mini and Duo Maxi**.

Their sectional character gives them a flexible and versatile identity, accentuated by new sizes. The main differences between **Mini and Maxi** are the depth of the seat and the modules available. In addition, each of the modules can now be used independently and we have improved the finishes as every little detail counts.

The **Mini** version's reduced footprint, and the simplicity of its modules make it an ideal choice to furnish the compact spaces characteristic of large cities. Each module can even be used as a small, independent armchair.

On the other hand, the **Maxi** version extends the width of some modules to create single-piece sofas with generous dimensions. Its wide selection of modules includes elements with or without arms, end and corner modules and a pouf. They can be combined in a variety of ways to create almost infinite configurations, ideal for open public spaces. Another new feature is the possibility of creating curved compositions.

Duo Maxi's deep seat enables the playful use of scatter cushions or even extra back cushions.

Its hidden feet make its voluminous silhouette appear to float gracefully above the floor.

CARACTERISTIQUES

DUO. Deux familles en une seule : MINI & MAXI

Esthétique et fonctionnelle, ce basique de notre catalogue est un design de **Rafa García**. Le designer re-interprète avec audace cette création afin de l'actualiser avec 2 versions plus contemporaines. **Duo Mini & Duo Maxi** sont la nouvelle proposition définie pour satisfaire les nécessités de différents espaces, aussi bien domestiques que collectifs.

Son caractère modulable lui donne une identité flexible et polyvalente, surtout grâce aux nouvelles dimensions. La différence entre **Mini & Maxi** est la profondeur d'assise et la modularité disponible. De plus, afin que chacun des modules puisse être utilisé de manière indépendante, nous avons profilé leurs finitions à tous les niveaux, car chaque petit détail compte.

Dans la version **Mini**, les dimensions réduites et la simplicité de la modularité disponible facilitent l'aménagement d'espaces réduits et compacts, propres aux grandes villes. Ces modules peuvent fonctionner également seuls comme de petits fauteuils.

D'autre part, la version **Maxi** propose d'augmenter la largeur de certains modules pour obtenir des canapés d'une seule pièce aux dimensions généreuses. Sa modularité est étendue et inclut des modules avec ou sans bras, des modules terminaux, angles, et un pouf, qui, articulés de différentes manières, font des configurations quasi infinies, idéales pour les espaces publics. Aussi, il est important de souligner comme nouveauté, la possibilité de réaliser des compositions courbes.

La grande assise de **Duo Maxi** permet de jouer avec de nombreux coussins de décoration, et même, d'incorporer des cousins de dos extra.

Les pieds ne se voient pas, ce qui fait que cette volumineuse silhouette paraît flotter avec légèreté sur le sol.

IMPORTANTE

No es tapizable en piel. Los módulos tapizados en tela son totalmente desenfundables, aunque es necesario desmontar el asiento del respaldo. Incluye instrucciones.

Almohadas de respaldo opcionales no incluidas en el precio.

La unión de los módulos se realiza mediante carracas.

Las solicitudes de composiciones modulares deben adjuntar un plano en planta al realizar el pedido. La mano (derecha/izquierda) se interpreta siempre viendo el dibujo de frente.

CARACTERISTICAS TECNICAS**TELA**

- Módulos totalmente desenfundables.
- Estructura asiento: estructura de madera preparada con cinchas elásticas de 80mm en el asiento, recubierto con espuma de densidad diferenciada (CMHR 30kg/35kg /60), revestido con fibra de H100gr con velour.
- Estructura respaldo y brazo: estructura de madera, recubierto con espuma de densidad diferenciada (CMHR 30kg/35kg y CM25kg), revestido con fibra de H100gr con velour.
- Patas en madera de haya, acabadas en wengué plus (las patas quedan ocultas).
- Almohadas decoración respaldo y riñonera: funda de algodón rellena de FiberDream (microfibra tacto plumón).

PIEL

- No se fabrica.

DESCARGAS

Más información, ficheros 3D, 2D, BIM, certificados de resistencia, calidad y medio ambientales disponibles en:

www.sancal.com/es/sofa-duo/

IMPORTANT

This model is not available in leather. Totally removable fabric covers, although it is necessary to remove the seat from the backrest. Includes instructions.

Optional back cushions not included in the price.

The modules are joined by a ratchet system.

Requests for modular combinations must have a plan attached when placing the order. Left to right as facing the composition.

TECHNICAL SPECIFICATIONS**FABRIC**

- Totally removable covers.
- Seat structure: wood fitted with 80mm elastic webbing, covered with foam of varying densities (CMHR 30kg/35kg/60kg), covered in H100g fibre.
- Back and arm structure: wood, covered with foam of varying densities (CMHR 30kg/35kg and CM25kg), covered in H100g fibre.
- Solid beech feet stained in wenge plus (hidden feet).
- Scatter and lumbar cushions: cotton cover with FiberDream interiors (a down-like microfibre).

LEATHER

- This product is not available in leather.

DOWNLOADS

More information, 3D, 2D, BIM files as well as certificates for resistance, quality and the environment can be downloaded from:

www.sancal.com/en/sofa-duo/

IMPORTANT

Pas réalisable en cuir. Les modules tapissés en tissu sont entièrement déhoussables, bien qu'il soit nécessaire de démonter l'assise du dossier. Notice jointe.

Coussins de dossier optionnels ou de décoration non compris dans le prix.

L'union des modules se fait par pieces d'union.

Les commandes de compositions modulables doivent être obligatoirement accompagnées d'un plan. Le placement des bras gauches ou droits s'entend toujours vu de face par rapport au dessin.

CARACTERISTIQUES TECHNIQUES**TISSU**

- Modules 100% déhoussables.
- Châssis d'assise: structure en bois préparée avec des sangles élastiques de 80mm pour l'assise, recouvert en mousse de différentes densités (CMHR 30kg/35kg /60), avec fibre H100gr et recouvert d'une housse non tissée.
- Châssis de dos et bras: structure en bois, recouverte de mousse de différentes densités (CMHR 30kg/35kg y CM25kg), avec fibre H100gr et recouvert d'une housse non tissée.
- Pieds bois hêtre teinté wenge plus (non visibles).
- Coussins de décoration de dossier et cale-reins: housse coton garnie de fibre FiberDream (microfibre toucher plume).

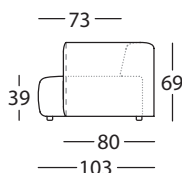

CUIR

- Non disponible.
