

## Wallis

Un gioco di linee concave e convesse, lineari o curve. Wallis è il mobile contenitore Meridiani pensato sia per la zona giorno, con ante, sia per la zona notte come vera e propria cassetiera. Il progetto prevede quattro unità, in quattro forme, che possono vivere singolarmente oppure essere accostate tra loro, dando vita a composizioni e interpretazioni differenti. Le finiture disponibili sono laccature lucide e opache; il top, inoltre, è realizzabile in marmo, quartzite, travertino, vetro retro-verniciato o cuoio. Questo singolare eclettismo rende Wallis il perfetto alleato per un arredamento unico e personale, da sempre cifra stilistica di Meridiani.

An interplay of concave and convex, linear or curved lines. Wallis is a Meridiani storage unit designed for both the living room - with doors -, and the bedroom, as a pure chest of drawers. The design consists of four parts in four forms that can be used alone or in combination, resulting in a variety of compositions and interpretations. The various finishes include glossy and matt lacquers, and the top can be made of marble, quartzite, travertine, back-painted glass, or saddle leather. This remarkable eclecticism makes Wallis an ideal partner for unique and personal furnishings, which has always been Meridiani's stylistic hallmark.

WALLIS 2024
