ALBERT — VINCENT VAN DUYSSEN 2018

1—
3

Albert is a world that reflects a personality, a complete programme of elements to model into configurations that are always diverse and modifiable, a dynamic system with rigorous geometric elements that make up an original interplay of soft volumes following a customisable scheme. By putting together the different elements and playing on the alternations of chairs and ottomans, an original and extremely complete configuration develops, able to present soft welcoming domestic islands that are ideal for spending a little free time or enjoying a complete relaxation. Double backrest cushioning: the traditional “backrest cushion” is combined with an elegant quilted back cushion to support the shoulders in the relaxing configuration, or to reduce the depth of the seat in conversation mode. Albert gives a contemporary interpretation to the living room by placing an accent on elegance, functionality and comfort, keeping attention focused on particulars and attention to details. A complete, calibrated collection with surprising aesthetic equilibrium, refined elegance and versatility.
