

Bahia mini, wall design Lucidi e Pevere 2015

Bahia, a name that recalls white beaches, sunny skies and the elegance of Bossa Nova, is a captivating wall and ceiling light with an extraordinary design that showcases innovative interplay of light and shade. The light has a seductive form that recalls the aerial vision of an archipelago, with radiating light that subtly emphasizes its topographic nature. In the mini version the largest disc has been removed. The LED version is the natural development of Bahia. Foscarini has developed and engineered the LEDs in this model and managed to improve the magic

of the light. In the mini version the largest disc has been removed. Bahia mini has many possibilities for use in both the domestic and contract sectors, especially in the low energy consumption and minimal maintenance LED version.

Bahia mini, wall technical info

Description

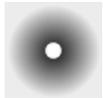

Wall and ceiling lamp with reflected and diffused light. Consisting of two matt white injection moulded polycarbonate egg-shaped plates fitted together asymmetrically. The largest plate works as the wall mounting plate, and the central one conceals the lighting technology part.

Bahia mini, wall designer+collection

Lucidi e Pevere

Paolo Lucidi and Luca Pevere got together at well-known design offices in Milan. In 2002 they signed their first commissions together and, in 2006, establish Studio Lucidi & Pevere in Milan. These days, Studio Lucidi & Pevere is based in Udine and still undertakes industrial design work for internationally renowned companies, belonging to a large number of different sectors.
