"A scale of pastel colors and chromatic contrasts insinuate the gradient on the surface of the cylinders creating a three-dimensional effect..."

Rotazioni plays on the repetition of overlapping cylindrical forms that emphasize the circle as the matrix of the design. A scale of pastel colors and chromatic contrasts insinuate the gradient on the surface of the cylinders creating a three-dimensional effect. This enhances the volume and dynamic composition of the design: from this "Rotazioni" which translated means "Rotations" was born.
