

CLAN

design Piero Lissoni

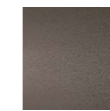

Sofas with fir honeycomb structure and base in poplar plywood with inserted 25x25mm section tubular steel frame, painted with epoxy powders. Belted seat with rubber-covered elastic strip springing. Padding in differentiated density polyurethane foam and cover in 100% polyether coupled with thermos-fixed polyamide velveteen backing. Seat cushion in differentiated-density polyurethane foam, covered with a polyester fibre cover with ago-treatment and resin bonding with polyamide velveteen backing. Support cushions 50x50 cm or 50x70 cm, made of washed and sterilised goose down, enclosed in separate sectors.

Feet made of laser-cut sheet steel, painted with epoxy powders in gunmetal grey or burnished colour. Floor support guaranteed by thermoplastic material supports. Leather or fabric upholstery fully removable by means of zips and Velcro straps.
Seat depth: Sofa 83 - 84 - 85 cm.
