

GLISS MASTER — VINCENT VAN DUYSSEN 2015

1—
47

The Gliss Master wardrobe system has been enriched with a new type of door featuring an ingenious opening mechanism: Sistema 7. The core of the design is a patented, horizontally folding mechanism that enables the doors to be moved effortlessly and silently from their initial housing at the side of the compartment, thereby making it fully accessible. The doors thus opened and folded back, are aligned parallel to the adjacent compartment, without occupying space in front of it. Sistema 7 is designed to accommodate very thick doors, lacquered, in wood or glass with patterned acid etching on the front. Sistema 7 is particularly suitable for corner solutions or as an opening in walk-in wardrobes, acting as a partition between the spaces in front of or in a wardrobe placed in the centre of a room or as access to a different room.

MODULARITY

Modularity - Structure

The widths 492 - 656 - 820 - 984 - 1312 - 464 (term. element) mm (19 3/8" - 25 7/8" - 32 1/4" - 38 3/4" - 51 5/8" - 18 1/4") include the left side panel. The total width of the composition will include the final panel of th. 30 mm (1 1/8").
 Heights: tot. H 2343 (92 1/4"), door 2313 (91"), int.2253 (87 3/4"), sliding or flush sl. door inter. 2163 (85 1/8")
 tot. H 2439 (96"), door 2409 (94 7/8"), int. 2349 (92 1/2"), sliding or flush sl. door inter. 2259 (88 7/8")
 tot. H 2631 (103 5/8"), door 2601 (102 3/8"), int. 2541 (100"), sliding or flush sl. door inter. 2451 (96 1/2")
 tot. H 2919 (114 7/8"), door 2889 (113 3/8"), interior 2829 (111 3/8"), only hinged

Assembly instructions

For the assembling of a sliding and a flush sliding door wardrobe a minimum space of 6 cm (2 3/8") is required considering the minimum height of the compartment.
 Assembly of the corner element (for wardrobe with doors) requires a minimum extra height of 6 cm (2 3/8").
 Assembly of a wardrobe in an alcove requires a minimum extra side space of 4 cm (1 5/8").
 A wardrobe with hinged doors and a lighting system requires a minimum extra height of 5 cm (2").

DOORS

155° opening (only for compartments with wooden sides)

On START - TWIN - "A FILO" - GRIP - DEEP - NICHE doors it is also possible to use 155° opening hinges, with an extra charge per individual door. In this case, it is necessary to take special care in inserting internal drawer units, trinket trays and devices.

It is also necessary to comply with the diagrams provided here.

Molteni & C

5—
 47

Hinged doors with key lock

For the hinged doors specified, a key lock can be fitted to order. There is a additional cost for one or two doors. It can even be fitted on a terminal element or a corner element (in compliance with the handle installation rules). For doors with a lock, the internal drawer units must be suspended. Installation of only the lock can be requested, without a handle, always considering the price of the START doors and the additional cost of the lock.

DATASHEET

REGISTERED
 DESIGN

IX.2019

SISTEMA 7

A new folding opening system with a patented mechanism which makes it possible, in the 180° version, to open the unit entirely. The mechanism, light and silent, does not require tracks and therefore allows use of the full height.

The hinged doors enable 180° opening and wardrobe width made to order; the special hinge pins are anchored to the base and the cover.

Anyhow, SISTEMA 7 hinge doors can be used.

The 90° opening, on the other hand, is an intermediate solution that can solve design problems while maintaining a uniform design.

The thickness of the wood and glass door are 35 mm.

SISTEMA 7 can be applied to all Gliss Master structures with wood, glass or frame sides, but cannot be used with other Gliss Master doors.

The 90° and 180° folding door is applied to modules with width 790 and 954, while the hinged door is applied to single modules 380/462/626, double modules 790/954/1282 and the corner unit.

The 380 mm unit is specific for SISTEMA 7 with hinged door.

Reductions

90° and 180° folding openings can be reduced in height only.

180° hinged openings can be reduced in height and in width up to 405 mm.

Notes

The side panels follow the same logic as Gliss Master (see drawing ●).

Molteni & C

6—
47

★ = 180° Hinged (necessary for 180° opening and for wardrobes with width made to order)

90° Folding opening

If the 90° folding door is on an end unit with external door, provide filler:

CORNER ELEMENT

Corner element D 595 - open or with GLASS/SWING/SISTEMA 7 doors

The corner element is provided complete with a base, lid and backs (melamine or fine grain). Between the corner element and the adjacent modules, it is necessary to insert central partitions in melamine, frame or glass.

The corner element can also receive a side panel to close the composition. Compartments adjacent to the closed corner element can be open or closed with GLASS, SWING or SISTEMA 7 (folding and hinged) doors.

Notes

The shelf is not included in the price of the corner element.
 Shelves and lids can be fitted with LED lighting bars, as indicated in the drawing below.

Reductions

The corner element can be reduced in height, width and depth.

In width, the reduction can be carried out either on one side only or on both sides, up to a minimum width of 1101 mm.

Reduction in depth can be done on one or on two sides, up to a minimum of 435 mm. If only one side is reduced, that will be the side with the longest shelves (*).

Molteni & C

7—
 47

The corner element can be fitted with shelves and clothes rails, or with this solution of drawer units that have a central partition H 1158 where the desired drawer unit can be inserted. The drawer unit can be with fronts W 420 or 584.

STRUCTURE

Structure for walk-in closet

In version **A**, the structure (base, lid, central partitions, back and side panels) is in melamine, in the same finish as the structure.

The back piece can also be provided in fine grain finish or in glass.

The side panels are always provided without extension profile (see detail).

In version **B**, the central partitions and sides are made with an aluminium frame with pewter colour or bronze finish, with or without glass.

Base, lid and back piece are in melamine, in the same finish as the structure.

The back piece can also be provided in fine grain or glass finish.

Horizontal tags on the base and lid are made in a pewter colour or bronze finish like the side frames.

In version **C**, given the presence of frame sides in pewter colour finish, the central and side partitions in melamine are also made with from tags in pewter colour or bronze.

 DESIGN

IX.2019

STRUCTURE

Linear modules

Linear modules are made up of a base and lid always made in melamine in the same finish as the structure.

The back is available in the three versions indicated below.

A1 and **A2** can be reduced in height, width and depth if closed by sides and doors that are compatible with the requested reductions.

A3 can be reduced only in height.

Central partitions

These are available in melamine, in the same finishes as the structure, frame and glass.

The melamine version can be reduced in height and depth.

The frame and glass versions can be reduced only in height.

Compartments with frame or glass sides must always include a shelf or a drawer unit.

Side panels

These are available in melamine, in the same finishes as the structure, frame and glass. The melamine version can be reduced in height and depth.

The outside of the side panel is available in the matt lacquer, glossy lacquer or wooden (vertical grain) finishes.

The standard finish on side panels is an extension profile in the coloured matt lacquer, pewter colour, bronze, shiny aluminium or black chrome finishes (to be specified in the Order). The extension profiles for glossy lacquer or wood side panels always match the side panels of the same finish.

The frame and glass versions can be reduced only in height.

Compartments with frame or glass sides must always include a shelf or a drawer unit.

Molteni & C

TWO-SIDED CORNER WARDROBE COMPOSITIONS WITH OUTWARD SWING DOORS

Many of the solutions described below can be created with Gliss Master.
These layouts can be installed either with or without the external corner module.

** For this side, please consider the wooden side panel surcharge.

Molteni & C

10 —
47

Solution A:
Outward swing doors
(NO glass back panels)

Solution B:
Outward swing door + Walk-in Closet
(NO glass back panels)

Solution C:
Outward swing door + Inward swing door
(example with glass back panels)

Solution D:
Outward swing door + Inward swing door
(example with rear finishing panel)

* This compartment can be closed with "A FILO" door and a NICHE door (vertical and horizontal).
For glass backs, drawer units are mandatory for compartments with frame or glass sides.
For melamine or fine grain backs, use the drawer unit with smaller width than the module.

EXTERNAL CORNER UNIT

External corner unit

- It can be either open or fitted with doors.
- It is always secured to the melamine central partitions of the adjacent wardrobes.
- The front profile can have a matt lacquered, pewter colour and bronze finish.
- Height, width and depth can be reduced.
- The external corner unit can be closed in all hinged door models.

Reductions

The external corner unit can be reduced in height, width and depth.

* For this side, please consider the wooden central partition surcharge.

Shelves with pewter colour profile		per millimetre	reductions depend on linear modules
Eco Skin shelves		per millimetre	reductions depend on linear modules
Glass shelves		per millimetre	reductions depend on linear modules
Clothes rails		per millimetre	
Central divider pieces	32 mm intervals		reductions depend on linear modules
Internal drawers / trinket trays, trouser holders and pull-out trays / grid with shirt and sweater holders / shoe rack shelves / pull-out shirt holders / lighting shelves / islands / movable trays	no reductions	no reductions	no reductions

* If the corner shelves are reduced on two sides, consider double the cost.

Lighting bars can be reduced with a surcharge included in the fee for cutting the shelf.

Cuts to measure

Diagonal cut doors (only for wardrobes with wooden sides)

When compiling the order, indicate the heights H1 and H2 and the width L as in the example.

The cost of a diagonal cut for each single door is the same as that for the hinged door in the table on page of the doors.

Compositions with diagonal slant are always built with single-door compartments. Only fitted with START, TWIN, "A FILO", GRIP or DEEP hinged doors. Doors must be hinged to the highest side panel. The door finish options for slanted wardrobes are restricted to cartapaglia, matt lacquer and matt lacquered cartapaglia. Structures can be either in standard sizes or customised.

Standard or cut-to-size doors (only for wardrobes with wooden sides)

For these solutions you can use either single or double units with hinged doors.

DEEP door th 25 DESIGN VINCENT VAN DUYSSEN

Door with recessed handle.

All the hinged doors have cushion-closing hinges.
The sliding door have a shock absorber mechanism which allows them to open and close softly.
Hinges with 155° opening can be used on hinged doors.

Notes

Sliding doors and flush sliding doors are not available in H 2889.

In the pair of hinged doors, the handle is mounted on both doors in the pair.

With fronts in cartapaglia melamine, graffiato, silk and lacquered cartapaglia finishes, the outside of the side panel can be made with matt lacquer finish (in the same colour as the front) or in melamine in the same finish as the inside structure (if the side panel is not visible).

Handles finishes

- pewter colour
- bronze
- pewter colour covered in Eco Skin in the colours (with surcharge per handle)
- bronze covered in Eco Skin in the colours (with surcharge per handle)

SPECIAL ELEMENTS

Column with open compartment

- Can be inserted only in wardrobes without doors or with hinged doors.
- Central partitions and/or lateral pieces close the column and cannot be frame or glass.
- The open compartment is always in matt lacquered colours.
- Doors are always without handles because they protrude with respect to the structure.
- Drawers are fitted with the "E" handle of the START door.
- Front finish: melamine front, matt lacquered colours, glossy lacquered colours and wood.

* **The price does not include the central partitions or side panels, nor the internal shelves.**

Reductions

Reductions are allowed only in height, and costs of cutting the structure and doors are applied. Open compartment and lower part cannot be reduced.

Wire passage **EPA1** Ø 60 chrome on request on back.

Notes

The back of the open compartment cannot hold a mounted TV.

FILLERS AND OPENING SIDE TRIMS

Horizontal filler

The filler is supplied in two parts, one part to be fixed to the ceiling to which the other will be hooked on (see diagram below).

The distance of the filler from the door is the client's decision.

In the cartapaglia finish, the grain direction is always vertical.

In the wood and graffiato finish, the grain direction is always horizontal.

Vertical filler

The vertical filler can be placed flush with the structure or the door.

This detail must be specified in the order to prepare the side panel (see example).

If this detail is not specified when placing the order, the filler will automatically be placed flush with the structure and the side panel will have the extension profile.

Opening fillers

Can be made with START and "A FILO" door. For handles, see surcharge.

Always have the 155° hinges.

Are the same height as the other doors in the composition.

Have a closing strip on their lower part.

In the wood finish, the grain direction is always vertical.

LIGHTING SYSTEM

Lighting bars with front LEDs

Internal compartments of Gliss Master wardrobes can be equipped with front LED lighting. The lighting bar can be applied to lids or to wooden, transparent glass and Eco Skin shelves. Using the electrified wire strip installed on the side (wood, frame or glass), the shelf can be moved. For each compartment length, we have made specific lighting bars with wiring compliant with European safety standards.

A wire strip is not needed if the compartment only has lighting on the top piece.

Lighting bars can be reduced with a surcharge for the shelf cutting.

Lighting shelves

It is possible to insert one or more lighting shelves in Gliss Master compartments. Using the electrified wire strip mounted on the side panel, the lighting shelf can be moved.

Lighting shelves can be connected to the wire strip on the left side panel or can be mounted without wire strip.

Notes

When placing the order, the customer must indicate how many shelves with lighting bars or lighting shelves are required. Lighting bars or lighting shelves can be placed in the same compartment. **For assembly: a lighting system on wardrobe with hinged doors requires a minimum extra height of 5 cm (2").**

Individual wire strip is always installed on the left side panel of the compartment, with the exception of corner units for walk-in wardrobes and of the compartment next to the corner unit.

When ordering, indicate compartments with wire strip.

The electrified wire strip is mandatory for wardrobes with wooden sides and glass back.

INTERNAL ACCESSORIES

Aircub is an air purifier and aroma diffuser that eliminates up to 95% of the harmful agents inside wardrobes through a process of ionisation and ozonation. Aircub can be managed easily from your smartphone with a dedicated app. Aircub can be installed on the back panel of each compartment. Just plug it into the electrical socket and turn it on. Every Aircub has a single plug.

Up to 3 Aircubs per wardrobe can be installed using the specific multi-socket connector.

Information about Aircub is available on the website <https://www.check-up.it> in the projects section.

GLASS LID FOR CHEST OF DRAWERS

To be used only in compartments with wooden sides

Modular chests of drawers can be made with a transparent glass lid in the module widths 790/954/1282.

It is mandatory that the first drawer be H 190 in wood (special measure).

The top can be fitted with a LED lighting bar, but it cannot be connected to the cable holder.

The connection to the power cord has to pass behind the back panel.

Eco Skin bottoms in grey can be inserted.

Pull-out shirt holder
 only for use in compartments with wooden sides

These units can be positioned on the floor-standing drawer units or suspended over a drawer H 190 of the same dimensions as the shirt unit (see ex. 1).

Notes
 Do not use for compartments with glass back.

Finishes
 The tray set on top of the shelf is always finished in melamine in the same finish as the structure with Eco Skin bottom grey finish.
 The shirt holder grid is always dolomite lacquered.

INTERNAL FITTINGS - MODULAR DRAWERS AND TRAYS

Notes

The parts of this internal fittings are produced with width and height dimensions corresponding to the modular compartments. This makes it possible to organise the internal spaces in a number of ways. To correctly and quickly determine the internal fittings, some of the possible compositions are in the following pages.

The pairs of side panels suspended or resting on the floor are essential for inserting all the elements.

Compositions must be completed with a top shelf.

When ordering, specify the handle finish as pewter colour or bronze.

No reductions of any kind can be made on drawers, trays and pairs of side panels.

Warnings on using compartments adjacent to the corner element

It is impossible to use trouser or trinket trays (used individually).

Wooden drawer finishes

melamine front in structure finish and piqué melamine
 fine grain finish front with pewter colour or bronze profile

drawer inside in grey saffiano melamine

Glass drawer finishes

transparent glass front with pewter colour or bronze frame
 inside in grey saffiano melamine

Open drawer finishes

ISLAND DRAWER UNIT - DRAWER UNIT

Island drawer unit

Made completely in larix dark or silver cembran melamine and available in two versions: with or without trinket trays in dolomite lacquer. Shelves in Eco Skin are available in colours in the catalogue. Standard handles are mounted, in pewter colour or bronze finish. It is possible to make STANDARD handles covered in Eco Skin with a supplemental charge for each.

version with trinket trays

- Side A has 6 drawers H 190 and 2 extractable trinket tray blocks.
- Side B has 4 drawers H 190 and and lower open compartments.

version without trinket trays

- Side A has 6 drawers H 190 and upper open compartment.
- Side B has 4 drawers H 190 and and lower open compartments.

Dimensions of the island cannot be reduced, and the composition cannot be modified.

It is possible to substitute the melamine drawers with glass drawers by adding the difference in price from **CLN8/19** and **CVN8/19**.

It is possible to substitute the melamine drawers with drawers with fine grain fronts by adding the difference in price of the finishes of the code **CLN8/19**.
