

**MATEO —**  
VINCENT VAN DUYSSEN 2023

Vincent Van Duysen reconfigures and adds character to the modern dining room with a new table design, available in two different versions and two heights. The Mateo table is composed of a slightly flared cylindrical pedestal base, which has been divided vertically in two. Made of a curved plywood structure, the symmetrical halves meet in an open furrow, creating a completely new and unexpected design element. The top - available in both rounded and oval versions - tapers subtly at the edges, allowing it to blend in perfectly with a wide range of environments. The internal frame is further strengthened by a hidden rod in lacquered metal, ensuring stiffness where the base meets the top. The base is available in either coffee oak, sunrise oak, burnished metal or the whole range of glossy lacquers. The Mateo table is available in two versions: dining and lounge. The 74 cm high dining version is available in lacquered finish in all the colours of the Molteni&C catalogue, coffee oak and sunrise oak essence. The top is either round, with 140, 160, and 180 cm diameters, or oval with 220 and 250 cm lengths. For an even more precious version, calacatta, emperador dark, black marquina marble finish is available in a matte or glossy polyester version. The round top is available in 140, 160, 180, and 200 cm, while the oval is available in 220 and 250 cm. The finishes range from coffee oak, which embodies warm brown facets and tones, to a warmer sunrise oak to glossy lacquers in the entire Molteni&C range, as well as calacatta, emperador dark and black marquina marbles. In addition, two new colours have been introduced to the lacquer palette: pine green, which recalls the typical dark green colour of coniferous trees in the winter, and almond white, a sophisticated milky shade. Mateo can include the addition of a rotating central element, Lazy Susan - a typical element of oriental culture, which allows all diners to be served in a practical way, creating intimate moments of conviviality. The tray, available in calacatta, emperador dark, and black marquina marble, is developed in two diameters: 80 cm (for the 160 and 180 cm tables) and 100 cm (for the 200 cm table). The Mateo is a modern concept of dining: a table with scalable proportions and clean lines, designed for the art of entertaining.

## FINISHES

### TOP FINISHES

- Wood: coffee oak / sunrise oak
- Glossy lacquer: in the colours of the Molteni&C range
- Emperador dark with matt or glossy polyester finish
- Black marquina with matt or glossy polyester finish
- Calacatta with matt or glossy polyester finish

### LAZY SUSAN MARBLE FINISHES

- Emperador dark with matt or glossy polyester finish
- Black marquina with matt or glossy polyester finish
- Calacatta with matt or glossy polyester finish

### BASE FINISHES

- Burnished matt lacquer
- Wood: coffee oak / sunrise oak
- Glossy lacquer: in the colours of the Molteni&C range

## TECHNICAL INFORMATION

### WOOD BASE

Internal metal structure with steel counterweights (where necessary). Curved outer shell made of moulded, edge-glued medium-density fibreboard covered in wood veneer.

### LACQUERED/BURNISHED BASE

Internal metal structure with steel counterweights (where necessary). Curved outer shell made of moulded rigid polyurethane painted in the colours of the Molteni&C range.  
For lounge tables and Ø 200, curved outer shell made of medium-density moulded fibreboard, painted.

### WOOD OR PAINTED TOP

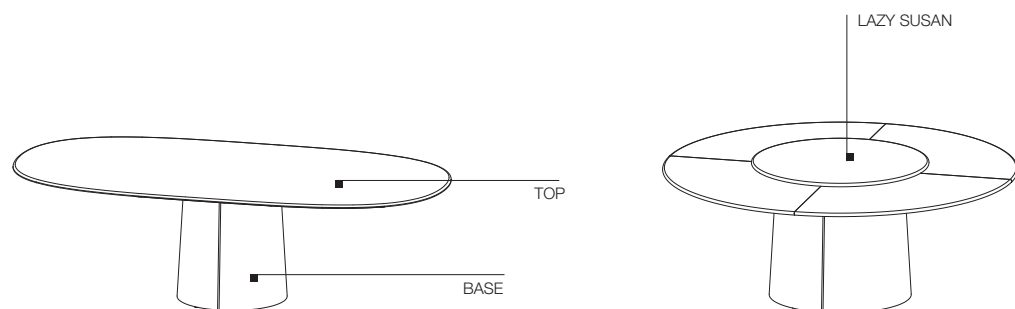

Medium-density fibreboard panel covered with wood veneer or painted in the colours of the Molteni&C range.

### MARBLE TOP

Marble with glossy or matt surface treatment. Support in laminate-faced particle board or medium-density fibreboard panel painted black.

### MARBLE LAZY SUSAN

Marble, with matt or glossy surface treatment. Rotating mechanism in anodised aluminium with details in different materials.

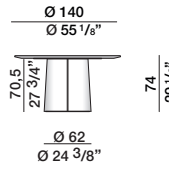

## DIMENSIONS

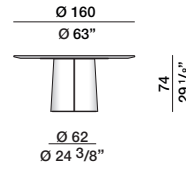

### Notes

No reductions of any kind or changes to the types are possible.
