night collection — Abacus

Fra tecnologia e suggestione, nuove valenze stilistiche per gli ambienti dedicati all'ordine personale. Il sistema Abacus porta l'estetica del vetro Rimadesio verso nuove possibilità di interpretazione: la cabina armadio diventa una stanza di vetro laccato, in cui si innestano elementi orizzontali di minimo spessore e dal massimo rigore geometrico. Un progetto che anche dal punto di vista illuminotecnico è in grado di coniugare funzionalità e mood, grazie al sistema di illuminazione integrato nella parte superiore dei pannelli a muro, che si affianca alle lampade a led delle mensole. In questa pagina e nella successiva: cabina armadio Abacus con boiserie e contenitori in vetro laccato lucido bianco latte e ripiani in alluminio laccato bianco, dotati di illuminazione a led. Porte scorrevoli Velaria con struttura piombo spazzolato e vetro trasparente grigio.

Between technology and suggestiveness, new stylistic values for environments dedicated to personal space. The Abacus system takes Rimadesio's glass aesthetic towards new possibilities of interpretation: the walk-in wardrobe becomes a room of lacquered glass wherein extremely thin and rigorously geometric horizontal elements are placed. A design that is capable of uniting functionality and mood from a lighting point of view, thanks to the built-in lighting system on the upper part of the wall panels, this system combines with the led lights on the shelves. On this page and on the next: the walk-in wardrobe interpreted by the Abacus system, with wall panels and cabinets in bianco latte glossy lacquered glass and shelves in lacquered white aluminium, equipped with led lighting. Velaria sliding panels with brushed lead structure and transparent grey glass.

Zwischen Technologie und Anregung, neue stylistische Werte für personale Umgebungen. Das Abacus-System bringt die Ästhetik des Glases Rimadesio hin zu neuen Interpretationsmöglichkeiten: der Schrank wird zu einem Raum aus lackiertem Glas, wo horizontalen Elemente der Mindestdicke und geometrische Strenge das Heim gestalten. Ein Projekt, dass aus der Sicht Beleuchtung, die Fähigkeit hat, Funktion und Stimmung zu kombinieren, dank zu der oberen Beleuchtung, in den Wandpaneelen integriert, und der Led Beleuchtung der Fachboden. Auf dieser und den folgenden Seite: der Schrankraum durch das System Abacus dargestellt, mit Boiserie Container aus glanzlackiertem Glas und Fachboeden aus lackiertem Aluminium beide in Farbton Bianco Latte, mit led-Beleuchtung. Schiebepaneele Velaria mit Struktur aus gebuerstetem Blei und transparentem grauem Glas.

Entre technologie et suggestion, nouvelles propositions stylistiques pour les ambiances dédiées au rangement. Nouvelles interprétations de l'esthétique du verre Rimadesio avec le système Abacus: le dressing devient une vraie pièce de verre laqué avec le mariage d'éléments horizontaux d'épaisseur très réduit avec un rigueur géométrique important. Un projet, que même sous un point de vue de l'éclairage, permet de marier fonctionnalité et humeur, grâce au système d'éclairage intégré dans la partie supérieure des panneaux au mur en plus de lampes led des étagères. Dans cette page et la suivante: dressing interprété par le système Abacus, avec boiserie et meubles en verre laqué brillant bianco latte et étagères en aluminium laqué blanc, doté d'éclairage led. Panneaux coulissants Velaria avec structure en plomb brossé et verre gris transparent.

Entre tecnología y sugestión, nuevos valores estilísticos para los ambientes dedicados a los entornos personales. El sistema Abacus lleva la estética del cristal Rimadesio hacia nuevas posibilidades de interpretación: el vestidor se convierte en una habitación de cristal lacado, donde se mezclan elementos horizontales de espesor mínimo y del máximo rigor geométrico. Un proyecto que también desde el punto de vista de iluminación técnica tiene la capacidad de combinar funcionalidad y el estado de ánimo, gracias al sistema de iluminación integrado en la parte superior de los paneles a pared, que se adjunta a las lámparas led de los estantes. En esta página y en la siguiente: el vestidor interpretado por el sistema Abacus, con boiserie y contenedores en cristal lacado brillante bianco latte y estantes en aluminio lacado blanco, con iluminación led. Paneles correderos Velaria con estructura plomo pulido y cristal gris transparente.

La presenza dei faretti a led, incassati sul lato superiore dei pannelli a parete, e degli altri integrati nei ripiani rivela la grande attenzione che Rimadesio ha posto nello studio illuminotecnico del sistema Abacus. Un elemento esclusivo del sistema, che ne sottolinea la carica innovativa, sono le aste portabiti a soffitto in acciaio. Una soluzione originale che contribuisce all'immagine di leggerezza che contraddistingue le composizioni. L'illuminazione prevista è a luce calda, 3200° Kelvin.

The presence of led spotlights, recessed in the upper part of back-panels and integrated into the shelves, are proving Rimadesio's great attention for the lighting engineer applied on Abacus system. The steel ceiling cloth rails are an exclusive element of this system that highlight its innovative value. An original solution that contributes towards the feeling of lightness that distinguishes the compositions. Provided led lighting system has warm light, 3200° Kelvin.

Led Strahler in Wandspaneele und Fachboden integriert, verraten Rimadesio Aufmerksamkeit zum Lernen des Abacus Beleuchtung Systems. Ein exklusives Element des Systems, das die Innovationslinie betonen, sind die Kleiderstangen, aus gebuerstetem Stahl, die an der Decke befestigt werden. Eine originelle Lösung, die Leichtigkeit zu dem Anlage gibt. Die vorgesehene Beleuchtung ist mit warmer Licht, 3200° Kelvin.

La présence de spots led, intégrés sur la partie supérieure des dos et des autres intégrés dans les étagères, révèle la grande attention de Rimadesio dédiée à l'étude du système d'éclairage pour Abacus. Les tiges porte-manteaux en acier, fixées au plafond sont l'élément exclusif du système qui soulignent l'innovation du projet. Une solution originale pour des compositions caractérisées par une extraordinaire légèreté. L'éclairage est prévu avec lumière chaude, 3200° Kelvin.

La presencia de focos led, empotrados en el lado superior de los paneles a pared, y de los otros integrados en los estantes revela la gran atención que Rimadesio ha colocado en el estudio de iluminación del sistema Abacus. Un elemento exclusivo del sistema, que pone de relieve la carga innovadora, son las barras de colgar a techo en acero. Una solución original que contribuye a la imagen de ligereza que distingue las composiciones. La iluminación prevista es de luz cálida, 3200° Kelvin.

Le cassettiere Abacus
Abacus drawer units

Il sistema Abacus si presta alla massima libertà progettuale, con un'eccezionale versatilità compositiva e un'ampia serie di possibilità per il posizionamento degli accessori. Le cassettiere e le basi attrezzate sono interamente rivestite in vetro laccato temperato e sono dotate di guide ad estrazione totale, con sistema di apertura push. In questa pagina: particolare della base attrezzata con cassetto push in vetro laccato lucido bianco latte. La struttura interna del cassetto è nella finitura melaminico cuoio grigio.

The Abacus system allows full freedom of design, with its exceptionally versatile modular system and a wide choice for positioning of its accessories. Drawer units and equipped baseboards are entirely covered with tempered lacquered glass and are provided with totally extractable drawers with push open. On this page: detail of the equipped baseboard with push drawer in bianco latte glossy lacquered glass. The internal structure of the drawer is in the melamine gray leather finishing.

Das Abacus-System erlaubt voller Freiheit Design, mit außergewöhnlicher Vielseitigkeit und eine breite Palette von Möglichkeiten für die Platzierung der Zubehöre. Aufgestattete Basis und Schubladelement sind mit temperiertem lackiertem Glas verkleidet und mit Push-Vollaufzuege versorgt. Auf dieser Seite: Detail des aufgestattetes Basis aus hochglanz lackiertem Glas bianco latte. Die Innenausführung in der Ausführung Melamin Leder grau.

Le système Abacus permet une exceptionnelle liberté dans les compositions où les accessoires peuvent être librement positionnés selon différentes series de possibilités. Les blocs tiroirs et les meubles sont entièrement recouverts en verre trempé laqué et sont équipés avec guides à extraction totale, et ouverture à pression. Dans cette page: détail du meuble équipé avec tiroirs à pression en verre laqué brillant bianco latte. La structure interne du tiroir est dans la finition mélamine cuir gris.

El sistema Abacus se presta a la máxima libertad de proyecto, con una excepcional versatilidad compositiva y una amplia gama de posibilidades para la colocación de los elementos accesorios. Las cajoneras y las bases equipadas están en su totalidad cubiertas en cristal lacado templado y tienen guías de extracción total con sistema de apertura push. En esta página: detalle de la base equipada con cajón push en cristal lacado brillante bianco latte. La estructura del interior del cajón está en el acabado de melamina cuero gris.

Soluzioni d'arredo complete
Complete furnishing solutions

Una soluzione d'arredo completa e perfettamente coerente: la composizione Abacus è affiancata dal sistema Graphis light, specificamente dedicato alla cabina armadio. Una proposta con i pannelli in vetro laccato monofronte, dotati di esclusive guarnizioni che garantiscono la perfetta tenuta alla polvere. In questa pagina e nella precedente: cabina armadio Abacus, con pannelli, basi attrezzate e cassettiere sospese in vetro laccato lucido grigio chiaro, ripiani in alluminio laccato grigio ombra. Porte scorrevoli Graphis light struttura alluminio e vetro laccato opaco grigio ombra.

A complete and perfectly consistent furnishing solution: the Abacus composition is used along with the Graphis light system, which is specifically dedicated to walk-in closets. The proposal envisages single-front lacquered glass panels fitted with exclusive seals to guarantee perfect protection from dust. On this page and on the previous: Abacus walk-in closet with grigio chiaro glossy lacquered glass panels, equipped bases and wall-mounted drawer units, and grigio ombra lacquered aluminium shelves. Graphis light sliding doors with aluminium frame and matt grigio ombra lacquered glass.

Ein umfassender, fein abgestimmter Einrichtungsansatz: An die Kombination Abacus schließt sich das eigens für Schrankzimmer konzipierte System Graphis light an. Diese Lösung zeigt Platten aus lackiertem Glas mit Einzelfront und hervorragenden Dichtungen, die vollständige Staubdichtheit gewährleisten. In dieser und vorheriger Seite: Schrankzimmer Abacus mit Platten, Basen und hängenden Schubladenschränken aus glanzlackiertem Glas in Farbton Grigio Chiaro, Fachböden aus Aluminium mit Lackierung in Farbton Grigio Ombra. Schiebetüren Graphis light mit Aluminiumprofil und matt lackiertem Glas in Farbton Grigio Ombra.

Une solution d'ameublement complète et parfaitement cohérente: la composition Abacus s'accompagne du système Graphis light, consacré spécialement à l'armoire penderie. Une proposition avec les panneaux en verre laqué sur un seul côté, dotés de joints exclusives qui assurent une tenue parfaite à la poussière. Dans cette page et dans la précédente: dressing Abacus, avec panneaux, bases équipées et blocs tiroirs suspendus en verre laqué brillant grigio chiaro, étagères en aluminium laqué grigio ombra. Panneaux coulissants Graphis light structure aluminium et verre laqué mat grigio ombra.

Una solución de decoración completa y perfectamente coherente: la composición Abacus está combinada con el sistema Graphis light, especialmente dedicado al vestidor. Una propuesta con los paneles de cristal lacado por un solo frente, dotados de exclusivas juntas que impiden la penetración del polvo. En esta página y en la anterior: vestidor Abacus, con paneles, bases equipadas y cajoneras suspendidas en cristal lacado brillante grigio chiaro y estantes de aluminio lacado grigio ombra. Puertas correderas Graphis light con estructura de aluminio y cristal lacado mate grigio ombra.

Le regole dell'abaco The abacus rules

Una cabina armadio che diventa sistema per arredare spazi di lavoro o commerciali come negozi o showroom: Abacus è una soluzione in continua evoluzione nella quale gli accessori e i materiali sofisticati ed eleganti, come l'esclusivo cuoio rigenerato argilla, assicurano eleganza e flessibilità in qualsiasi contesto. Nella pagina precedente: la cabina armadio Abacus che racconta nella sua completezza l'esclusiva varietà di attrezzature disponibili. Finiture: struttura alluminio, pannelli e cassettiere in vetro laccato opaco tortora, ripiani in alluminio laccato opaco tortora. Aste portabiti in acciaio inox spazzolato rivestito in cuoio rigenerato argilla. Accessori estraibili rivestiti in cuoio rigenerato argilla con frontali in vetro laccato opaco tortora. In questa pagina: ripiano estraibile con fondo rivestito in cuoio rigenerato argilla e cesta estraibile in cuoio argilla. Struttura in alluminio e frontali in vetro laccato opaco tortora.

A walk in wardrobe becoming a system to decorate workspaces or commercial shops and showrooms: Abacus is a always evolving solution, in which the accessories and the sophisticated and elegant materials, such as the exclusive regenerated leather argilla, provide for elegance and flexibility in any context. On the previous page: Abacus walk-in closet showing the entire and exclusive variety of accessories. Finishing: aluminium structure, back panels and drawer units in tortora mat lacquered glass, shelves in tortora mat lacquered aluminium. Cloth-hanger rods in brushed stainless steel covered with regenerated argilla leather. Pull out accessories covered with regenerated argilla leather with fronts in tortora mat lacquered glass. On this page: pull out shelf with internal structure covered with regenerated argilla leather and pull out tray in argilla leather. Aluminium structure and fronts in tortora mat lacquered glass.

Ein Ankleidessystem, das Einrichtungssystem fuer Geschaefte oder Showroom sein kann: Abacus ist eine Loesung auf staendiger Entwicklung, wo exklusiven, ausgekluegelten und eleganten Zubehoeren und Materialien, wie regenerierter Leder argilla, Eleganz und Flexibilitaet in jeder Situation versichern. Auf der vorheriger Seite: Ankleide Abacus, die entspricht ihre exklusive Vollstaendigkeit den Ausstattung Moeglichkeiten. Ausfuehrungen: Struktur aus Aluminum, Paneele und Schubladenelemente aus matt lackiertem Glas tortora. Kleiderstaenge aus gebuerstetem Stahl Inox, in regeneriertem Leder Argilla bezogen. Ausziehbaren Zubehoeren in regeneriertem Leder argilla bezogen und Fronten aus matt lackiertem Glas tortora. Auf dieser Seite: ausziehbarer Tablar mit Boden aus regeneriertem Leder Argilla und ausziehbarer Behaelter aus Leder argilla. Struktur aus Aluminum und Fronten aus matt lackiertem Glas tortora.

Le dressing qui devient un système pour le projet des espaces de travail ou des magasins commerciaux ou des showroom: Abacus est une solution en évolution constante, dans laquelle les accessoires et les matériaux sophistiqués et élégants, tels que le cuir régénéré argilla, offrent élégance et flexibilité dans tout le contexte. Dans la page précédente: dressing Abacus, qui souligne dans son intégralité la variété exclusive de l'équipement disponible. Finitions: structure en aluminium, panneaux et tiroirs en verre laqué mat tortora. Étagères en aluminium laqué mat tortora. Tiges porte manteaux en acier inox brossé recouverts en cuir régénéré argilla. Accessoires extractibles recouverts en cuir régénéré argilla avec façades en verre laqué mat tortora. Dans cette page: étagère extractible avec fond recouvert en cuir régénéré argilla et conteneur extractible en cuir argilla. Structure en aluminium et façades en verre laqué mat tortora.

Un vestidor que se convierte en el sistema para amueblar espacios de trabajo o comerciales tales como tiendas y exposiciones: Abacus es una solución en continua evolución en la que los accesorios y los materiales sofisticados y elegantes, como el exclusivo cuero regenerado argilla, proporcionan elegancia y flexibilidad en cualquier contexto. En la página anterior: vestidor Abacus que cuenta en su totalidad la exclusiva variedad de los equipos disponibles. Acabados: estructura aluminio, paneles y cajones en cristal lacado mate tortora, estantes en aluminio lacado mate tortora. Barras de colgar en acero inoxidable cepillado o cubierto con cuero regenerado argilla. Elementos accesorios extraíbles cubiertos con cuero regenerado argilla con frontales en cristal lacado mate tortora. En esta página: estante extraíble con el fondo cubierto de cuero regenerado argilla a cesta extraíble en cuero argilla. Estructura en aluminio y frontales en cristal lacado mate tortora.

Abacus
 Modularità
 Modular structure

La modularità del sistema Abacus si basa su pannelli a parete in vetro laccato disponibili in quattro larghezze e tre altezze. Un'estetica delle ampie superfici e minimi spessori orizzontali. A sinistra: particolare del pannello a parete in vetro laccato opaco tortora con sistema di illuminazione a led nel lato superiore, ripiano laccato opaco tortora con faretto a led integrato. Asta portabiti in acciaio inox spazzolato rivestita in cuoio rigenerato argilla.

The modular nature of the Abacus system is based on lacquered glass wall panels that are available in four different widths and three different heights. Aesthetics focussing on wide surfaces and minimal horizontal thicknesses. On the left: detail of back-panel in tortora mat lacquered glass with upper led lighting system, tortora lacquered shelf with integrated led spotlight. Cloth-hanger rod in brushed stainless steel covered with regenerated argilla leather.

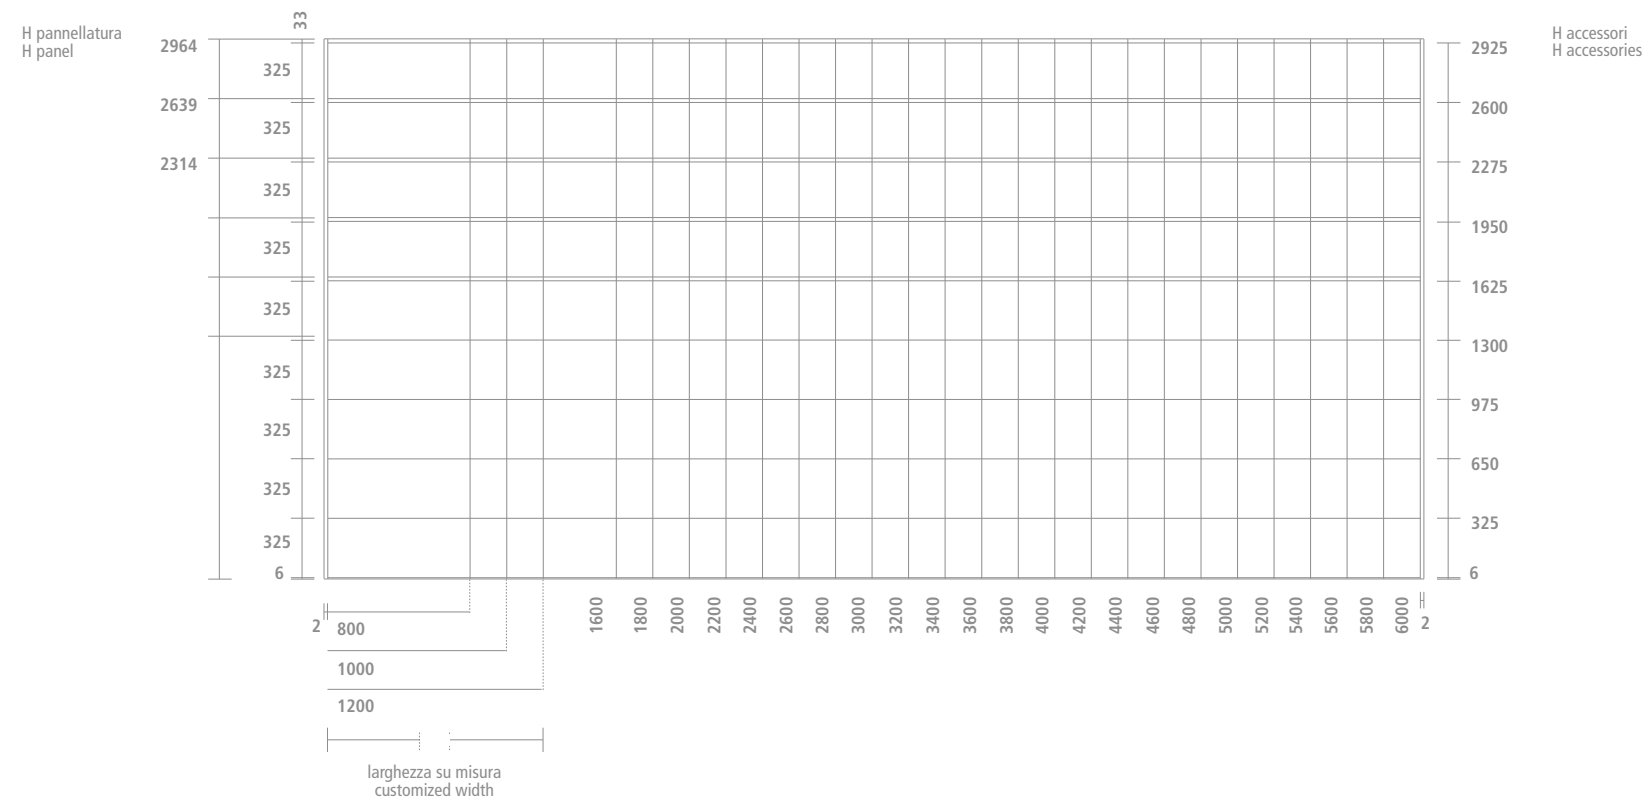

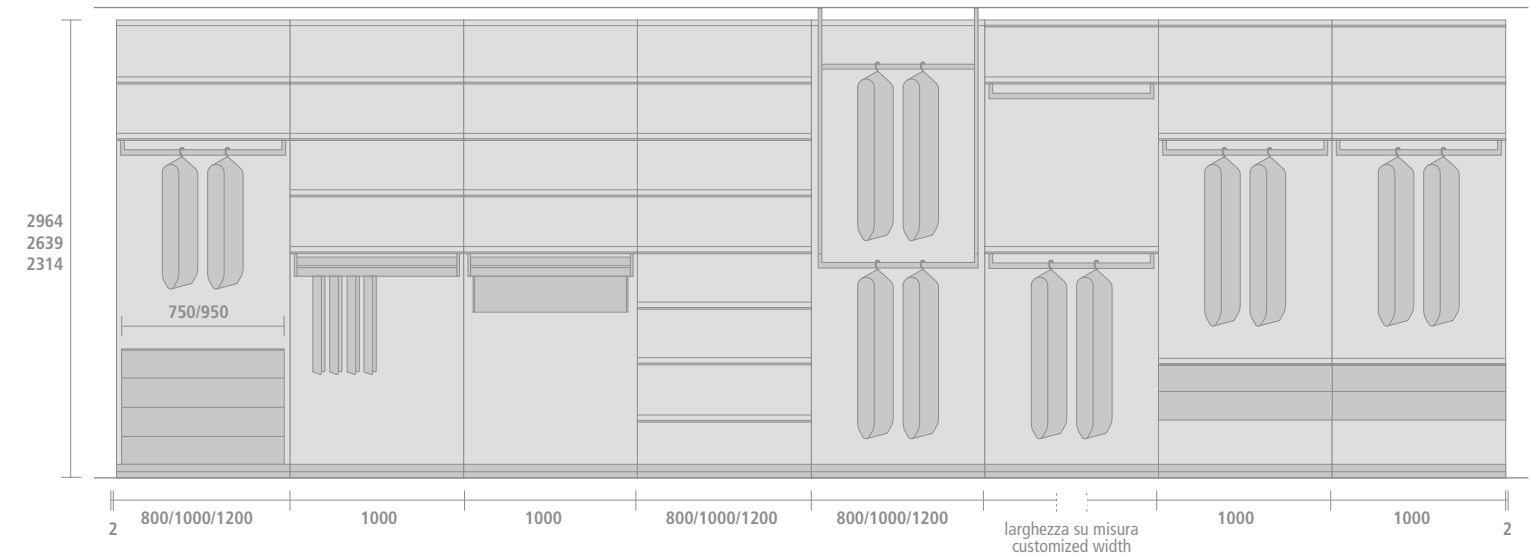

Die Modularität des Systems Abacus basiert auf Wandplatten aus lackiertem Glas, die in vier Breiten und drei Höhen lieferbar sind. Eine Ästhetik der großen Oberflächen und kleinen horizontalen Stärken. Links: Detail des Wandpaneels aus matt lackiertem Glas tortora

mit integriertem Led Beleuchtung System auf der obener Seite, matt lackierter Tablar mit integrierter Led Strahler. Kleiderstang aus gebuerstetem Stahl Inox, in regeneriertem Leder Argilla bezogen.

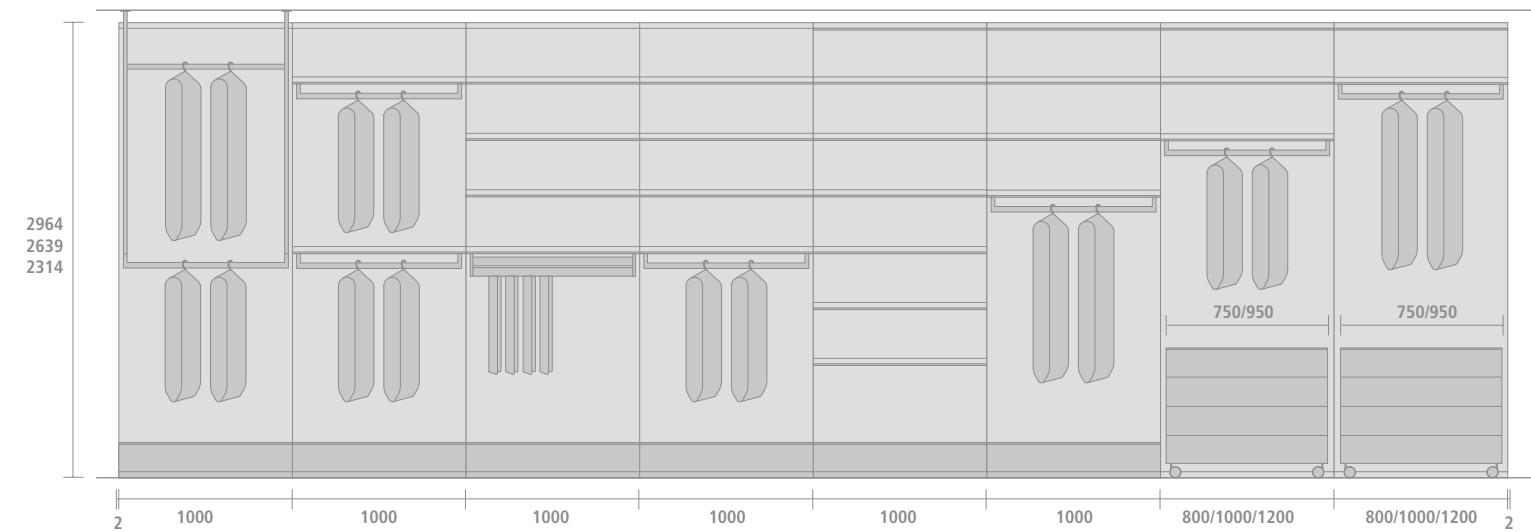

La modularité du système Abacus se base sur les panneaux murals en verre laqué disponibles en quatre largeurs et trois hauteurs. Une esthétique des vastes surfaces et des surfaces horizontales minimales. A gauche: détail du dos en verre laqué mat tortora avec système d'éclairage led supérieur, étagères laqué mat tortora avec spot led intégré. Tiges porte manteaux en acier inox brossé recouverts en cuir régénéré argilla.

La modularidad del sistema Abacus está basada en paneles de pared en cristal lacado disponibles en cuatro anchuras y tres alturas. Una estética de amplias superficies y mínimos espesores horizontales. A la izquierda: detalle del panel a pared en cristal lacado mate tortora con sistema de iluminación les en el lado superior, estante lacado mate tortora con foco led integrado. Barra de colgar en acero inoxidable cepillado cubierta en cuero regenerado argilla.
