TECHNICAL DATA

Single

Cm 142x180h – 3000K

Cm 185x180h – 3000K

Cm 204x180h – 3000K

Pair

Cm 142x180h – 3000K

Cm 185x180h – 3000K

Cm 204x180h – 3000K

CARE AND MAINTENANCE OF METALS

Avoid leaving household liquids (oil, red wine, vinegar, etc.) on the surface. In particular, products that contain citric acid (present for example in fruit, citrus fruit and tomatoes) act on contact with the treated surface, removing its original sheen. Always clean stains while they are still fresh. For routine maintenance use a microfiber cloth and water. Do not use products containing acids, limescale removing substances or alcohol.
