

FLOS

AIM, Bronze - Specification Sheet by Ronan and Erwan Bouroullec, 2013

Mounting	Ceiling Pendant
Lamp (Bulb) Description	1 Multichip LED 2700K 1250lm CRI90 16W
Delivered Lumens	895lm
Environment	Indoor - Dry Location
Dimming	Dimmable
Finish	Anodized Bronze
Technical and Product Description	AIM pendant lamp. Constructed from varnished aluminum sheet with photo-etched optical polycarbonate shade and Internal reflector of photo-etched ABS. Cable may be adjusted to allow fixture head and light distribution to be aimed. The cable has a total length of 354 inches (9m) and therefore the lamp can be suspended 118 inches (3m) from the ceiling.

Hardwired version is supplied with a 5" diameter canopy to be hardwired directly to a 120V junction box (no additional LED driver is required). A plug-in version with switch (not dimmable) is also available. Please select model of choice when ordering.

NOTE: We offer discounts on the purchase of 3 or more AIMS fixtures. Discounted pricing will show in shopping cart at checkout. If multiple fixtures are to be hardwired to a single junction box, you must purchase a special canopy. The canopy will allow 3-5 pendants to be hardwired to one junction box (this does not apply to plug-in version). Please contact customer service by sending an email to e-shop@flosusa.com or by calling toll-free 844-356-7872 for details.
