## Good to know

- 'Hopper' stands for 'Hop Picker', because the range is inspired by hop gardens, harvests and beer fests.
- The Hopper bench legs are cut out of an aluminium or metal sheet nearly without any loss of material.

## Floor fastening

Hopper bench always has two anchoring holes per leg (ø 12mm), to be fixed with bolts.

## Important

Use our packaging material for better support to attach the legs to the tabletop.

1. Leave the box on the pallet.
2. Remove the lid of the box.
3. Take the legs out of the box.
4. Put the lid back on the box.
5. Put the tabletop on top of the box.
6. Assemble the Hopper bench AA.

## Maintenance

### POWDER COATED PARTS

- White powder coating obviously requires more maintenance.
- Clean stains with a magic eraser.
