

Dada

TIVALÌ— DANTE BONUCCELLI 2004

Tivali is a concentrate of technology. It is more than just a kitchen, it is a kitchen box that magically appears and disappears when necessary. The large doors slide and fold, disappearing into the side compartments with a light and fluid movement, thanks to the exclusive patented mechanism by Dada. The lighting is spectacular, with the back panel becoming a LED light wall. In 2016 Tivali changes shape, from linear to a corner dimension. It adapts while keeping its basic elements unchanged.

photo finishings

- _ corner composition
- _ graphite oak external doors and upper backpanel
- _ matt lacquered clay internal base units doors
- _ absolute black flamed and brushed worktop
- _ back-lighted lower backpanel
- _ pewter special metal lacquered shelf
