

Twiggy, ceiling design Marc Sadler 2007

Foscarini and Marc Sadler's shared passion for research into new technologies has given rise to Twiggy, the iconic arched floor lamp which is available in an entire collection of lamps made of composite material on a lacquered fibreglass base. In the ceiling version, the diffuser support recalls the arched shape of the floor version. The support is secured in one point and can swivel by 330°: an excellent solution to decentralise the light point, guaranteeing maximum flexibility. The diffuser guarantees direct lighting in the area underneath the lamp and – thanks to the

transparency of the upper protection disk – diffuses efficient lighting by reflection. Available in two colours, it can blend in seamlessly with any décor and style.

Twiggy, ceiling technical info

Description

Ceiling lamp with arm, with direct and indirect light. Diffuser and rod made of fibreglassbased composite material and liquid coated. Translucent polycarbonate upper diffuser disc, PMMA lower diffuser disc with polyprismatic internal surface. Epoxy powder coated metal round ceiling rose. Supplied with 4 counterweights to be inserted in the purpose-provided seat above the diffuser to adjust its height. The arm is adjustable 360°, the length of the rod cannot be modified.

Materials Varnished fibreglass-based composite material, polycarbonate and varnished metal

Colors white, black

Model

Twiggy

Weight

net lbs: 12,35
gross lbs: 19,40

Packaging

vol. cub. ft.: 6,639
n. boxes: 2

Bulbs

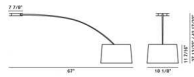

incandescent 3x100W E26

LED retrofit/FLUO 3x20W E26 medium

Rotating 330° Stem lenght cannot be changed

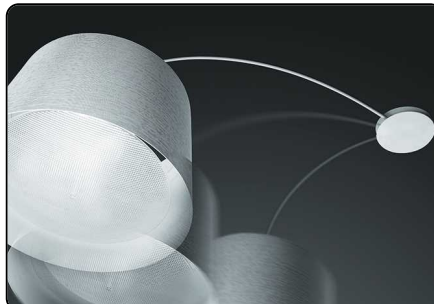

Brightness light

semi-diffused and indirect light
