Sand-free shoes

CGear Sand-Free, creator of products for a sand-free life, introduces Ventolation, a footwear collection with a patented, innovative design. A removable insole system vents sand, water and air through channels in the sole keeping feet clean, cool and dry. The Ventolation collection includes slip resistant, quick drying sandals and flip flops for men and women, as well as sandals and espadrilles for boys and sandals and ballerina flats for girls.
