Who we are?

Leather Finishing Products (Australia) Pty Ltd is an Australian based company which manufactures and supplies leather care products, paints, cleaners, conditioning creams, protectors, touch up pens, resins, dyes etc to the Asia Pacific region.

We are a Stahl agency. Stahl are the largest and most respected leather chemical company in the world. We have the knowledge,

solutions and products for all things leather.

Our approach is to listen, understand and continually develop ways of helping our customers. Through our people, resources and technology, we'll make sure our customers receive the support they need and when they need it most.

Why study with us?

Training Courses are conducted by experienced leather technicians from LFPA and Stahl. Course Instructors are experts in their fields. All courses are written by industry experts and include up to date industry issues. So be assured, that your training will be current and relevant.

All course participants receive:

- Comprehensive course manual
- Leather samples
- Certificate of competency
- Our training can be conducted at our premises in Ormeau Queensland or at your place of work.

Support and After Sales Service

After training is completed we have unparalleled support through our 1300 Technical HOTLINE

If a technician is about to start a job and has concerns regarding the process, for peace of mind, they can call us and discuss the problem at hand.

Alternatively take a photo and simply SMS this to one of our technicians for an immediate reply.

All the technicians we train receive a field manual which covers many different aspects of leather/vinyl repairs and answers frequently asked questions their clients may have.
