  - *Pyramid hoods only use parts 1 and 3; please discard parts 2 and 4.
  - *Rectangle and Canopy hoods use parts 1, 2, 3 and 4.

- **Tube**
  - (1 piece)

- **Carbon filter**
  - (2 pieces A + 2 pieces B)

- **Wall screws**
  - (2 + 1 pieces)

- **Wall plugs**
  - (2 pieces)

- **Screws**
  - (8 + 1 pieces canopy and rectangle / 6 + 1 pieces pyramid)

**Installation**

If range hood is already installed, please remove upper chimney and screws. Keep parts for posterior steps.

1. **If installing Rectangle or Canopy hood**, lock parts 2 and 3 to part 1, with 2 pieces screws 5. See Fig. #1. Please skip this step if installing Pyramid hood.

2. Lock the bracket 1 to T-box 2, with 2 pieces screws 5. See Fig. #2.

3. Connect tube 3 to T-box 2. See Fig. #3.

4. Screw the bracket 1 into the wall, with screws 5 and plugs 7. See Fig. #4.

5. Screw upper chimney bracket to wall. See Fig. #5. **Skip this step if bracket is already installed.**

6. Screw the chimney to chimney bracket, with parts previously set aside. See Fig. #6.

7. Lock the T-box to chimney, with 2 screws 6 on each side. If installing Rectangle or Canopy hood, please see Fig. #7-1, if installing Pyramid hood, see Fig. #7-2.

8. Attach the 2 round carbon filters (A or B, depending on model) onto the range hood. See Fig. #8.
