

TO SHORTEN RAIL:

1. Place rail on flat surface with desired indented snap line at the edge.
2. While holding rail down with one hand, clamp pliers at the desired snap line.
3. Bend pliers down to snap off unwanted piece.

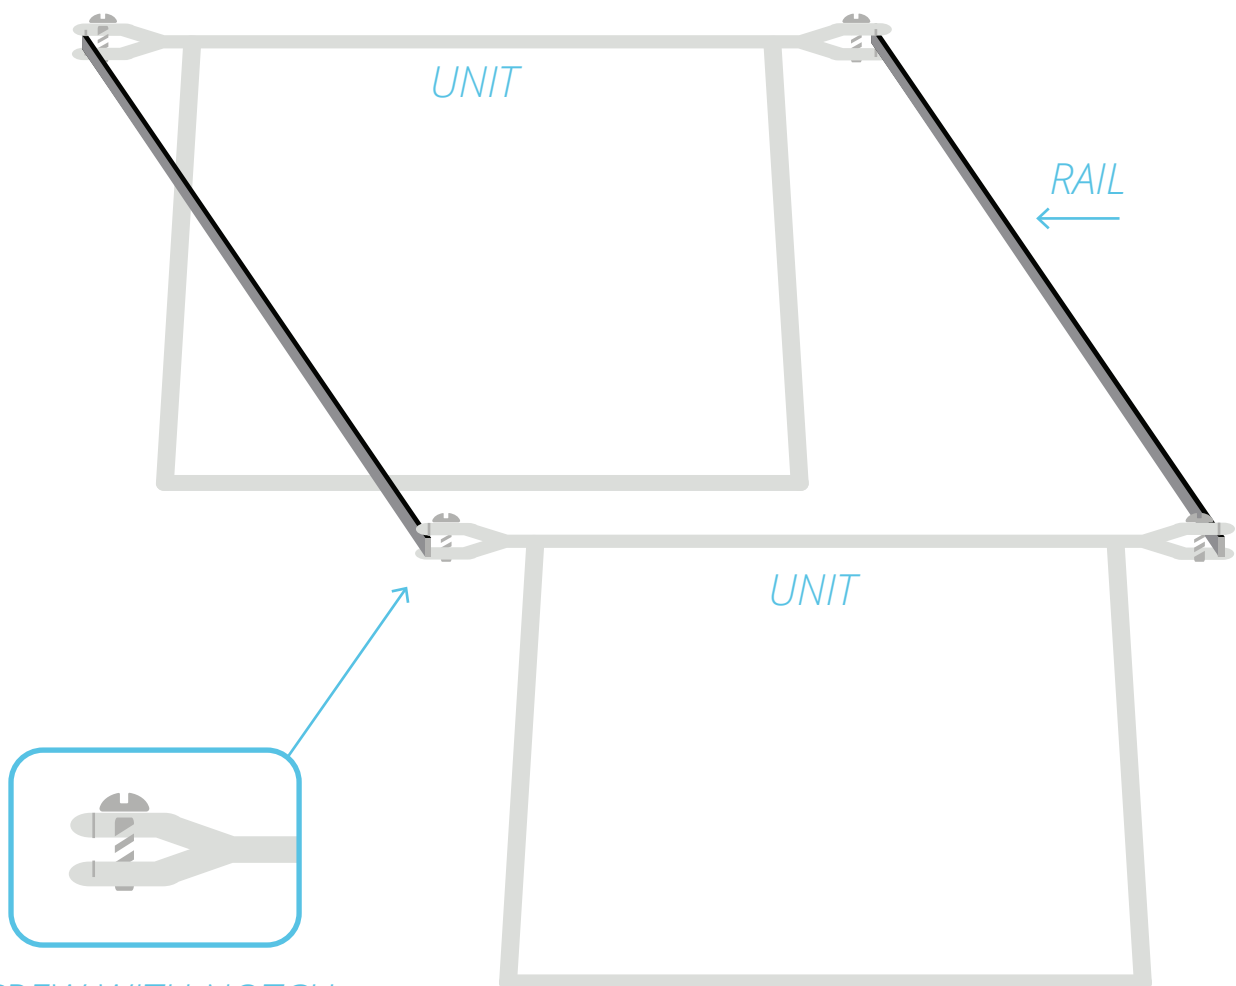

SNAP LINES ↓

RAIL

TO ASSEMBLE:

1. Loosen screws at the end of each unit with screwdriver or coin.
2. Have another person help you while sliding the rail into the notch near the screw.
3. Tighten screw to secure rail in place.
4. Repeat steps 2 and 3 for all four notches.
