Note: This battery case doesn't support NFC.

Using your LG V20 10000mAh Tricell Extended Battery

1. Every new battery need to be charged for 12 hours before initial use.
2. Recharge your battery when there is nearly 2% power left.
3. Please charge the battery for extra 3 hours even though your phone shows 100% charge.
4. Please perform 6 full charge/discharge cycles to ensure the optimal performance of battery.
5. Please try to keep the screen and all the background apps off during charging.
6. Due to the oversize capacity, phone will show the battery at 3% for slightly prolonged period, this is normal behavior.
7. Please remove the back cover of your LG V20 for use and install the TPU case.

For Optimal Use (IMPORTANT)

Use only LG V20 original charging cable and charger for optimal use and safety. Other chargers and cables may not be compatible and result in overheating.

Caution

1. Keep the battery away from high temperature.
2. Do not disassemble the battery at any time.
3. Keep the battery away from metallic objects.
4. Do not crush the battery.

Warranty

This product is covered by a warranty of 180 days from the date of purchase.
