

KOALA CLIP

EST. 2017

Get the peace of mind and
comfort you deserve.

KOALA CLIP

the first portable sports bra pocket

Whether you run, walk,
bike or hit the gym,
we've got your back.

Every Koala Clip is:

- **Sweat-resistant:** An inner liner protects your belongings from moisture, sweat, rain, and water.
- **Chafe-free:** High-quality outer material that wicks sweat away, which prevents the pouch from rubbing against you and chafing your skin.
- **Bounce-free:** When properly secured, the Koala Clip stays put. It won't move when you do.
- **Versatile:** Use Koala Clip with sports bras you already have in your closet. Or, attach it at your waist.
- **Protective:** Koala Clip keeps your phone insulated in the winter, so the cold doesn't drain your battery.
- **By women, for women.** Created by a mom looking for a comfortable way to take her phone with her while exercising.

Beyond exercise:

Provides a discreet way for young girls to carry epi-pens, asthma inhaler or glucose monitor.

Carry your passport securely while traveling inside a large koala clip.

Many sporting events and concerts limit size of bags. Medium and Large Koala Clips fit within their restrictions.

our founder:

It was in the middle of a long run, as our founder, Kristina, was fumbling with her belt, that the idea for Koala Clip was sparked. With a \$50 sewing machine, youtube to learn to sew, and working hours at the kitchen table after her kids were in bed, Koala Clip was born.

Kristina is a mom to two and has no background in manufacturing or retail. Kristina spent over a decade helping local and national candidates win elected office and started Koala Clip in 2017 as a side gig.

Kristina never set out to create a "business" when she began hand-making Koala Clips for her friends. She is a problem-solver and found the answer to solving a problem that plagued her and her running friends.
