

Now, onto our shameless plug for reviews!

For us, Amazon reviews are as important as a good night's sleep to a new mom or dad. If you love your sleep bumpers, please help us spread some good hiccupvibes. To make it really easy (which is important when kissing up like this), we are even emailing you a "product review link."

Instructions are generally boring (even ours), but please read them and hopefully you find something useful. Here it goes:

#### INSTALLATION & USE INSTRUCTIONS:

Remove plastic band, unroll, and allow foam to return to its full shape (about 2 hours). Place the bumper on the edge of the mattress under deep-fitted sheets. We've improved our non-skid material so your bumper should work on virtually all beds now.

Finally, enjoy your hiccapop bumper. Lots of hours (and coffee) were put into its design, and we are incredibly proud of it. We look forward to sharing more ideas with you down the road!

Sophistication, Peace, Tranquility  
-Love, hiccapop
