

instructions (even ours) can be boring, but please read them anyway because we are sure you will learn something new:

1. No assembly required! Just unpack it and hang it on the rail of your changing table using our extra heavy duty fasteners. They are also extra-large so they will fit around anything. How was that for simplicity?
2. Now...for you more adventurous folks, look on the back of our organizer and you will see two reinforced loops. Those loops will allow you to hang the organizer on a wall or perhaps even a door. Just remember, you will have quite a bit of weight in your organizer, so if you hang it on the wall or door, make sure you anchor the mountings really well.

#hiccafact: babies burp because they are uncomfortable. but did you know baby gorillas burp because they are happy?

we hope you love your nursery organizer as much as we loved designing it. lots of hours (and caffeine) were put into its design, and we are incredibly proud of it. we look forward to bringing you many new and innovative products down the road.

peace, joy, tranquility
love, hiccapop
