

## Kitchen & Bath Scouring Paste

Makes 4 250ml Jars

Scouring pastes are designed to help clean, sanitize, and brighten where they are applied through polishing out grime. This scouring paste contains ingredients such as D-Limonene (a natural citrus degreaser that is used to help remove soap scum and kitchen grease), Sodium Bicarbonate and Borax to help disinfect and deodorize and Natural Liquid Castile Soap that is used to give the paste its lathering and wetting properties. This product can also make a great natural oven cleaner.

### **Ingredients:**

- **Sodium Bicarbonate (Baking Soda) – 500 grams (50%)**
- **Borax - Pentahydrate 5 Mol Powder – 300 grams (30%)**
- **Castile Liquid Soap Base – 100 grams (10%)**
- **D-Limonene – 100 grams (10%)**

## Directions:

1. Combine all the ingredients in a bowl and stir well to mix.

2. Package into jars and your product is ready to use!

## To Use:

- Apply the Scouring Paste with a Damp Cloth, Sponge, or Soft Scrub Brush
- To use the Scouring Paste as an oven cleaner, mix the paste with a bit of water and then apply the mixture to the inside of your oven. Allow the mix to dry and then remove with a wet cloth.

## Additional Note:

- Essential Oils can be added to this recipe to increase the disinfecting properties of the paste. Please note however, that D-limonene has a naturally strong citrus scent which may overpower the scent of any added essential oils to the paste.
