

*Lamb Easter Bath Bomb
with Bubble Bar*

Voyageur Soap & Candle Co.

Lamb Easter Bath Bomb

Ingredients :

Lamb Ears :

3g Cocoa Butter

0.15cc Pink Shimmer Mica

Lamb Eyes :

1g Polysorbate 80

0.15cc Onyx Mica

3g Pink Himalayan Salt

Bath Bomb

Dry Ingredients :

80g Baking Soda

40g Citric Acid

2g Lathanol

1g Milk Powder

3g Corn Starch

2g Cream of Tartar

Wet Ingredients:

2g Cocoa butter

2g Avocado Oil

2g Polysorbate 80

1g Cocamidopropyl Betaine

3g Fragrance (Bloomscape)

10g Sprinkles

0.15cc Neon Hot Pink Kisses Mica

Lamb Body:

Dry Ingredients:

130g Baking Soda

15g Lathanol

8g Cream of Tartar

15g Cornstarch

1g Clay

Wet Ingredients:

3g Glycerin

1g Polysorbate 80

2g Fragrance(Bloomscape)

10g Cocamidopropyl Betaine

2g Cocoa Butter

Isopropyl Alcohol

Utensils:

2x Mixing Bowls

Small Mixing Cups

Microwave Safe Cup

Metal Bath Bomb Mold - 2.5"

Metal Bath Bomb Mold - 2"

Flowers Mini Embed Mold

0.15cc plastic scoop

Scale

Sifter

Piping bag and large round tip

Fine Paintbrush

Popsicle Stick

Metal Spoon

Large Bubble Wrap

Microwave

Gloves

Facemask

Lamb Ears

Melt 3g of Cocoa Butter in a microwave safe cup. Mix in Pink Shimmer Mica and pour into Flowers Mini Embed mold cavities that resemble ears. Put aside for a couple hours to harden.

Once hardened , unmold and then cut the Flower along the lines into little rounded ears.

Lamb Eyes

Pick out some similar round / oval shaped Pink Himalayan Salt crystals . Add them into a mixing Cup with a drop of Polysorbate 80 and 0.15 cc spoon of Onyx Mica. Mix well so the crystals are evenly coated .

Place the Crystals onto a paper towel for a couple hours to dry.

Bath Bomb:

Weigh out and sift the Baking Soda, Lathanol, Milk Powder,

Corn Starch, Cream of Tartar

and in a separate bowl the Citric Acid, as we will be adding it last to avoid activation of the mix!

In a heat safe mixing cup weigh out the Cocoa butter and set aside.

Now in another cup weigh out the Avocado Oil, Polysorbate 80, Cocamidopropyl Betaine and Fragrance.

Mix until well combined.

Add the Wet ingredients into the dry ingredients leaving out the Citric Acid and Cocoa butter.

Mix well for a couple minutes until all ingredients are evenly mixed together.

Melt the Cocoa Butter and add into the mix, mix well.

Now add the Citric Acid and again mix until well combined.

In a separate Bowl take a little of the Bath Bomb Powder
Mix and add 0.15cc of Neon Hot Pink Kisses Mica into it.
(this will be for the pink swirls in the bath bomb)

Take one half of the Metal Bath Bomb Mold - 2.5" and place one half of the Metal Bath Bomb Mold - 2" inverted inside of it.

Add Sprinkles into the mold.

Next add the bath Bomb mix and push it gently into the sides making sure the sprinkles will be coated in the mix forming a wall. Sprinkle more Bath Bomb mix on top.

Fill the 2nd half of the 2.5" Mold, add some of the pink mix on one side and fill up the mold.

At this point push both 2.5" halves together creating the bomb. Gently tap with a metal spoon to break the vacuum and carefully unmold the bath bomb onto a piece of large bubble wrap. Let dry for a couple hours. Do not attempt to unmold the 2" half we used to make the indent before the Bath Bomb has hardened to lower risk of breaking it. I prefer waiting at least 24h before adding the Lamb into the Indent!

Carefully lift out the 2" Metal Mold half from the Bomb .

Lamb Body

Now weigh out the Baking Soda, Lathanol, Cream of Tartar, Cornstarch and White Kaolin Clay. (You may choose other clays, if you want a Grey Lamb go with Black Brazilian Clay!)

In a heatsafe cup measure Cocoa Butter, melt in the microwave and then add into your dry ingredients and mix until well combined.

Weigh out the Glycerin, Polysorbate 80, Fragrance (Bloomscape), Cocamidopropyl Betaine and add into the mix and mix well.

Now add Isopropyl Alcohol until you reach a pipeable consistency, like buttercream. If you accidentally add too much Isopropyl alcohol just let it sit for a while and wait for it to evaporate!

Once you're happy with the consistency add the mix into a piping bag with a large round tip (the bigger the better).

Now make a big Dollop into the middle of the indent. Even it out with a popsicle stick.

Then add a Dollop on top of this, in a circle motion pipe the body of the Lamb around the Dollop.

Making 2 bigger rings on the bottom for the body, then a smaller one on top for the neck and then 2 medium sized rings for the head.

Gently Push the ears
on the side of the head.

Place 2 of the Black Salt Crystals
where the eyes should be.

Using a fine Paint brush and a mix of
Isopropyl Alcohol and Onyx mica , paint the
nose and mouth onto the Lamb.

Let the piped Lamb dry for at least 24 hours
before packaging!
