

regn®

SPRING/SUMMER 2024

Colorful fashion

The weather has been a great source of inspiration in the development of Regn's functional raincoats for rainy and stormy days.

Regn produces colorful, elegant, and high-quality rainwear devoted to delivering a stylish design to women around the world.

Regn is sustainably developed and meets EU's environmental and quality standards, including Oeko-Tex Standard 100.

Regn takes technological fabrics specially designed for outdoor use and transforms them into modern clothing, without compromising on either style or the functional requirements of everyday wear.

Regn products are versatile and comfortable to wear, designed in a delicate fashion and can be used whenever and wherever, with or without rain.

Enjoy!

We keep you dry and well-dressed.

Let's color the world!

A close-up photograph of a blue fabric surface, possibly a jacket sleeve, covered in numerous small, clear water droplets. The word "regn" is printed vertically in a white, serif font in the center of the frame. The background is a soft, out-of-focus blue.
