INSTALLATION STEPS

1. Ensure there is a through-hole (35mm) on the basin, the max thickness of basin is 35mm.
2. Put the body into the hole.
3. Use the fixing assembly (rubber washer, stainless steel washer and nut) to fix the faucet on the basin, and tighten the screw.
4. Connect the blue flexible hose to cold angle valve and the red flexible hose to the hot. Turn on the stop angle valve and mixer switch to check the tightness of each connection. If no leaking, installation is finished.
