01

Adjustable wrench

Box Spanner

S2.5 Allen wrench

Key
Prepare and check the following tools.

02

Faucet body

Rubber Washer

Locking washer
Locking Nut

Remove the locking nut, locking washer and rubber washer from the faucet body.

03

Upper Lift Rod

Braided Hoses
Lower Lift Rod

Put the upper lift rod into the slot on the back of faucet body to connect with the lower lift rod. Screw the braided hoses. Attention to the red on the left and the blue on the right.
04
Basin Deck

Place the faucet body over the basin deck. Put on the rubber washer and locking washer, and fix with locking nuts.

05

Drainage

Hot Water Triangle Valve

Cold Water Triangle Valve
Connect the braided hoses with triangle valves (red on the left and blue on the right). Connect the lift rod with drainage.

06

Hot

Cold

After installation, run water for inspection. The figure is for the case when the handle is turned on.
07

Place the faucet body over the basin deck. Put on the rubber washer and locking washer, and fix with locking nuts.
