BAD AXE PARTICULATE CONQUEROR (PC)

User Instructions

What is Bad Axe Particulate Conqueror: Bad Axe Particulate Conqueror is a mild blend of uniquely charged surfactants used as a cleaning aid. It is designed for use in remediation, demolition, and water- and fire-restoration cleanup of residential and commercial properties. Use Bad Axe Particulate Conqueror to enhance your remedial process, improve air sampling results and as a source removal product.

Mixing instructions:

1 gallon container: One gallon, concentrate Bad Axe Particulate Conqueror makes 8 gallons Ready-To-Use (RTU). Dilute Bad Axe Particulate Conqueror 16 ounces per gallon of water. That can also be calculated as 1 part Bad Axe Particulate Conqueror to every 8 parts of water.

1 Pint container: One pint, concentrate Bad Axe Particulate Conqueror makes 1 gallon Ready-To-Use (RTU).

Application Instructions:

Misting: Fog or mist into air and on surfaces, following the establishment of containment, and after appropriate engineering measures are in place. Allow to dry. For optimal results, then vacuum surfaces with a HEPA-filtered vacuum. Run HEPA-filtered air scrubbers for a period consistent with industry standards.

Wiping: Bad Axe Particulate Conqueror can also be used to wipe surfaces for the purpose of surface source removal, following the establishment of containment and after appropriate engineering measures are in place. For optimal results, then vacuum surfaces with a HEPA-filtered vacuum. Run HEPA-filtered air scrubbers for a period consistent with industry standards.

Additional Information: Always use proper PPE and approved respiratory protection during any project. Allow product to tack before demolition. Re-apply as often as needed to control airborne particulate. Clean fogging or misting equipment with warm water following use. Do not store or apply below 36°F. This product does not protect users from or against viruses, germs, bacteria and other disease organisms.

Coverage: Expect to easily achieve between 1,000 cubic/feet to 2,000 cubic/feet per Ready-To-Use (RTU) gallon with Bad Axe Particulate Conqueror.
