ACCUSPLIT® AX725BKC
OPERATING INSTRUCTIONS

**The AX725BKC comes with Traceable Accuracy Calibration.
Please see enclosed documentation for more details.**

BASIC STOPWATCH OPERATIONS

Twin Button Feature: The Left and Right buttons on new ACCUSPLIT stopwatches operate interchangeably, so both are labeled **"A"** for these instructions.

C (2sec) – Review* (Shows last DUAL Split)
C – Review (Shows next DUAL Split, in reverse order)
C (2sec) – Exit Memory Review to last DUAL Split.
*Reviews at any time in reverse numerical order.

BATTERY CHANGING

If the display becomes dim or goes blank, you can replace the battery using "X3V" case battery changing instructions posted at www.accusplit.com/support. The watch uses a five-year CR2032 Lithium battery.

Master Reset
Remove battery as shown above. Wait 5 seconds and reinstall.
