

GRAYL

# GEOPRESS®

FILTER & PURIFIER CARTRIDGE

## Active Technology:

Ion exchange, ultra-powdered activated carbon.

**Antimicrobial:** Yes

**Chemical-free:** Yes

**BPA free materials:** Yes

**Size:** 2.9" (7.3 cm) H x 3.1" (7.8 cm) W

**Weight:** 3.8 oz (108 g)

**Fast Flow Rate:** 8 seconds per 24oz (5 liters/minute)

**Lifespan:** 350 presses (250L/65 gal)

**Shelf Life:** Stored under proper conditions, an unopened Cartridge has a shelf life of 10 years. After a cartridge has been used, it lasts at least 3 add'l years.

## REMOVES

**VIRUSES** ( 99.99% )

ROTOVIRUS, NOROVIRUS, HEPATITIS A

**BACTERIA** ( 99.9999% )

E. COLI, SALMONELLA, DYSENTERY

**PROTOZOA** ( 99.9% )

GIARDIA, CRYPTOSPORIDIUM, AMOEBAE

## FILTERS

**PARTICULATES**

MICROPLASTICS, SEDIMENT, SILT

**CHEMICALS**

CHLORINE, BENZENE, CHLOROFORM

**HEAVY METALS**

LEAD, ARSENIC, CHROMIUM

Follow easy step-by-step video/photo guides.

## TECHNOLOGY

### CARTRIDGE LIFESPAN

The lifespan of a Cartridge varies with the quality of the water sources; the clearer, the better. High levels of silt or sediment will shorten the lifespan of the cartridge. Typically, when using clear water, a cartridge will be effective for **~350 cycles (250L / 65 gal)**. As "press time" reaches **~25 seconds** (or three years have elapsed since first use) it's time to replace your cartridge. *Cartridge continues to protect, even as press time increases.*

**350 PRESSES**  
**250 L / 65 GAL**  
**5 L / MIN**

**ONE PRESS™**  
**8 SECONDS**

## CARTRIDGE REMOVAL

COUNTER-CLOCKWISE

### REMOVAL

Firmly grasp the Inner Press. Rotate the cartridge **counter-clockwise** until it separates from the Inner Press.

## CARTRIDGE INSTALLATION

INSERT CARTRIDGE

### INSTALLATION

Firmly grasp the Inner Press. Insert cartridge into the bottom of the Inner Press.

**CAUTION:** Proper installation of cartridge prevents cross-contamination.

CLOCKWISE

### IMPORTANT: LOCK CARTRIDGE

Rotate cartridge clockwise until you feel it **CLICK** and **LOCK INTO PLACE**. If the cartridge is not locked, it can fall off during use.

## PRECAUTIONS

### FRESHWATER ONLY.

Use freshwater only (no other liquid). NO salt or brackish water.

### CROSS-CONTAMINATION.

Do not expose/fill the Inner Press with untreated water, cross contamination may occur. If this does happen, disassemble and wash GEOPRESS (not Cartridge) with soapy water and rinse thoroughly. Alternatively, thoroughly dilute potential contaminants by pressing (and agitating) water through the GEOPRESS Cartridge 5-7 times.

### SOURCING THE BEST WATER.

Always begin with the cleanest (least silty) water available. For instance, streams are generally better than lakes and bogs (which are often have higher levels of sediment and tannins).

### CYANOBACTERIA, HIGH LEAD LEVELS, MERCURY, ETC.

Cartridges are designed to remove trace levels of chemicals and heavy metals. The GEOPRESS was NOT designed to protect against industrial disasters, coal ash spills, very high lead levels, mercury, nuclear disasters or toxic blue-green algae (cyanobacteria), etc. Find another water source in these situations.

### CAUTION WITH TANNINS.

Tannins are natural organic compounds that leach from decomposing vegetation and trees and can cause Cartridges to prematurely stop working. In high concentrations, tannins are easily recognizable, as they turn water tea-colored and form blackwater rivers. Do not use GEOPRESS in water with high tannin concentration.

### NO FREEZING.

Cartridges are not significantly degraded after one freeze/thaw cycle. However, don't use a cartridge after 3 or more freeze/thaw cycles. Protect your GEOPRESS in freezing temperatures by keeping it full of water and insulate in a jacket or sleeping bag.

### NO HOT (OR BOILING WATER) OR MICROWAVES.

Do not expose Cartridge to water hotter than 120F (50C), it will harm purifier media. Do not put the GEOPRESS in the microwave.

## CARE BETWEEN USES

### DON'T USE SOAP ON CARTRIDGE.

Do not wash the Cartridge with soap or other cleaning agents. Soap will damage the purifier media. You may rinse the Cartridge with clean water as needed.

### PROPER CARE & STORAGE.

For long-term storage, prepare the GEOPRESS Bottle to prevent growth of mildew and odors. Thoroughly dry Cartridge by performing one 'dry press' by pressing the wet Cartridge into an empty (no water) Outer ReFill and dump excess water. Allow Cartridge to air-dry thoroughly (depending on humidity it will take 2-4 days to completely dry). Hand wash all other parts with warm, soapy water. Reassemble unit to create air tight seal for storage. Cartridges can last up to three years after opening if cared for properly between uses.

## WE HAVE YOU COVERED

### WARRANTY

Every GRAYL is accompanied by a ten (10) year warranty covering workmanship and materials.

### TESTING STANDARDS.

Meets or exceeds the United States Environmental Protection Agency's Water Purifier standard for microbiological filtration.
