NEW PRODUCTS

Super Strong Steel Rear Torsion Arms Your Choice -

Strong and safe, it keeps the driver safer and lessens the chance of breaking during a crash. Made from 4130 steel, it won't change torsion bar rates but maintains flexibility. These arms stay strong even with high exhaust heat, reducing twisting under pressure.

Part No.	Description
TIP2330	Steel Right Rear Torsion Arm
TIP2332	Steel Left Rear Torsion Arm

Tire Covers For Sprint Cars

Sprint Car tire covers are crafted from aluminized insulated material to shield tires from direct sunlight. This protection helps maintain the tire compound, preventing potential alteration caused by exposure to direct sunlight and heat. The Right Cover fits tires up to 100"-115" and left rear cover fits 84"-99".

Part No.	Description	Price
TIP5470	Kit Comes with Left And Right Cover	
TIP5472	Right Rear Cover Only	

Top Hoop Front Bumpers

Bumpers are fabricated from 1" O.D. stainless steel 4130 chromoly and feature a protective black powder coated finish.

PEM

pemracing.com

2" Grand National Floater Housing

PEMHN320320HV

9" Ford Floater housing for 2.0" hubs. 64" track width and centered pinion from wheel mounting face to wheel mounting face when hubs are installed. New stamped center housing with 0.188" (3/16") wall DOM steel tubes and 2.0" snouts. The snouts are plug welded in the tubes for a strong floater rear end housing.

26-Spline Axle

PEMFLAX7.5GMSSM

Aftermarket replacement axle for G Body 1978-83 GM mid size metric cars. 1541 alloy construction is 25% stronger than stock and features two bolt patterns, 5 x 4.75" and 5 x 5" with the holes drilled for aftermarket 0.685" knurl wheel studs. The 26-spline axle measures 28-7/16".

Brute Differential Case

PEMDHNI3250

Brute nodular iron 9" Ford case for 3.25" carrier bearings. Designed as a top option for drag racing, offroad, or any application that demands tough components, case weighs 36 lbs. Works well with 35-spline and 40-spline spools, and differentials with 2.0" journal sizes.

DRG2 13" Drag Steering Wheel

MPIMPI-DRG2-13-SQD

The DRG2 is the evolution of the popular DRG model and represents the current pinnacle of the MPI DRAG line of wheels. Features include a 13" dia. flat top and bottom, 4-spoke design, and light weight aluminum body.

GT-RA Steering Wheels

Your Choice -

GT-RA steering wheels are designed for road course or track day peak steering performance. Steering wheels feature MPI unique 4-spoke black-anodized aluminum body, black alcantara grip, and a variety of predrilled 12mm push-button locations.

Part No.	Description
MPIMPI-GT-RA-330	13" Dia.
MPIMPI-GT-RA-280	11" Dia

GT-RSC Steering Wheels

MPIMPI-GT-RSC-310

The GT-RSC takes inspiration from the MPI wheels built for Australia Supercars. Unique D-shaped design deforms under impact to provide added safety for the driver. Wheel features 12" 3-spoke black-anodized aluminum body, black alcantara grip, and 4 holes.

Lava and Stealth Oil Filter Heat Shields

Oil filter heat shields assist in preventing oil overheating. Rated for up to a constant 1,200°F or intermittent 2,000°F, shields are constructed from volcanic rock fiber-based thermal barrier material and held in place with magnets to protect from slipping and help to hold any debris trapped in the filter. Available in original Lava tan or black dyed Stealth.

Part No.	Description	Price
HSP504501	Stealth, 3.7" Dia., 3.8" Tall, Mopar/Ford Mod Motor	
HSP504502	Stealth, 3.8" Dia., 4.8" Tall, Early GM/Ford	
HSP504503	Stealth, 3.1" Dia., 3.25" Tall, GM LS/LT1/LT4 Series	
HSP504504	Stealth, 3.25" Dia., 3.875" Tall, Ford Coyote 5.0L

Cold Intake Cover Systems

Wrapping a cold air intake system decreases the temperature of the air flowing in, creating a heavier air/fuel mix. Aluminized fiberglass cloth has a hook-and-loop closure and is rated to withstand 500°F of direct heat, 1,100°F of reflective heat, and 2,000°F of intermittent heat. Kit.

Part No.	Description	Price
HSP274400	3' Long, Use with up to 4" Tube	
HSP274403	3' Long, Use with up to 3" Tube, Includes Air Box Shield	
HSP274404	3' Long, Use with up to 4" Tube, Includes Air Box Shield	

Intake Manifold Heat Shields

Heat shielding the intake manifold reduces the amount of heat inside the engine compartment, creating cooler air and reducing heat wear on components. Shielding applies with 300°F rated adhesive.

Part No.	Description	Price
HSP140020	LS1/LS2/LS6	
HSP140022	LS7	
HSP140023	Fast LSX	
HSP140025	LT4	

Catch Can Cool Shield

HSP140401

Catch can heat shield protects against temperatures up to 1,100°F. Measures 7"W x 12"L, includes edging tape.

Starter Heat Shields

Wrapping the starter in a heat shield extends the life of the starter and helps prevent starter heat soak. Aluminized fiberglass cloth has hook-and-loop closure and 1,100°F rating.

Part No.	Description	Price
HSP501000	7-3/4" x 21-3/4"	
HSP501010	3-1/2" x 18"	

Fuel Rail Heat Shields

Fuel rail heat shields protect important fuel components and prevent pre-ignition.

Part No.	Description	Price
HSP700270	6" x 18", Each	
HSP700271	6" x 18", Pair	

NEW VENDOR

Redstuff Ceramic Brake Pads

A superb pad for high-performance street use. Ideal for high HP imports, muscle cars, and high-end European cars. Redstuff reduces dust by up to 80% compared to OEM pads, while also preventing rotor wear. Sold in axle sets.

Zmax 8-oz. tub of synthetic extreme pressure spline and axle grease is rated for high temperatures. Each.

Advanced Thermal Acoustic Coating DSN50208

Spray or roll on coating is the 2-in-1 heat and sound barrier. Formulated from a unique high-tech ceramic micro-sphere technology that reflects heat and dampens noise. 1 gallon tub.

Discovery Next Trailer Brake Controller CUR51126

Brake controller features low-profile design, full adjustable power/ramp time, day/night lighting modes, and can operate 2-8 trailer brakes (1-4 axles) at a time. Power adjustments are displayed .5 at a time.

Discovery Next Trailer Brake Controller CUR51116

Brake controller features low-profile design, full adjustable power/ramp time, day/night lighting modes, and can operate 2-6 trailer brakes (1-3 axles) at a time. Power adjustments are displayed 1.0 at a time.

TPMS Tire Monitoring System CUR57009

The TPMS tire monitoring system allows the driver to track tire pressure and temperature on up to twenty tires in real time while towing. System links with OneControl app available in both iOS or Android. System includes (4) sensors, repeaters, and dock assemblies.

Echo In-Line Trailer Brake Controller CUR51200

Design to work seamlessly with both the vehicle and the app, Echo in-line trailer brake controllers can operate 2-8 trailer brakes (1-4 axles) at a time and features automatic calibration.

Revolver X4S Tonneau Bed Covers

Revolver X4S rolling bed covers are constructed from durable marine-grade vinyl stretched over heavy-duty, cut-resistant aluminum slats, and features full matte-black styling that extends to all components. Cover supports up to 40 lbs. of weight.

Black motor mount insert fits 2007-18 Dodge Ram 2500/3500.

410 Sprint Car HD Engine Block Your Choice -

Manufactured in the USA, the lightweight yet rigid block is engineered to endure the rigors and meet the requirements of competitive open-wheel racing. Featuring a 4.125" bore, 4-bolt billet main caps, and a front priority oil system.

Part No.	Description
BR08B1000HD	400 Mains, 9.020" Deck Height
BR08B1050HD	350 Mains, 8.650" Deck Height

VRS-4150 Race & Performance Carburetor

This 4-barrel carburetor without choke is ideal for street/strip applications. Along with mechanical secondaries, the carb features fuel bowls that are 20% larger, with anti-slosh internal ribs and sculpted baffles that minimize bubbles. The high-speed main fuel circuit is split into two bleed circuits to provide greater control at high RPM - one for the lower section and one for the upper section. The power valves are located on primaries and secondaries to support optimized jetting. Additionally, the power valve protection circuit prevents diaphragm damage from backfires. This carburetor is a direct fit for all 4150 and 4100 carb flange manifolds.

Dart LS Next Gen 3 Skirted Block to Early GM F-Body Swap Road Race Oil Pan

MOR20153

This rear sump fabricated aluminum pan has a billet aluminum rail for added strength. It has a 7-quart capacity and measures 6" deep. The pan also includes a removable windage tray and a road race trap door assembly for superior oil control. Additionally, it features a billet aluminum oil filter mount and a 1/4" NPT sensor port. The pan can clear most 4.25" stroke steel rods.

Ford 351W Road Race Oil Pan

MOR20539

The front sump oil pan for Ford 351W is made of fabricated steel and comes with a removable windage tray and a road race trap door assembly to ensure superior oil control. It is 8" deep with a 7-quart capacity. The black powder-coated pan can clear most 4.00" stroke steel rods.

Big Block Chevy Monster Truck Oil Pan

MOR20604

This big block Chevy heavy-duty steel oil pan is designed for rear-facing engines and V-Drive marine applications in Monster Trucks. The reverse sump pan has a capacity of 9-1/2 quarts and a depth of 7-3/4". With multiple trap door baffles, anti-climb baffles, and a louvered windage tray, it offers superior oil control. Additionally, it includes two 212-watt oil pre-heaters with dual 1" NPT locations. The pan can clear most 4.25" stroke steel rods and most 4.090" stroke aluminum rods. Pickup is sold separately.

AMC/JEEP V8 Deep Sump Oil Pan

MOR20719

This 7-quart capacity AMC/Jeep V8 steel oil pan is 7-13/16" deep and includes a removable anti-slosh baffle for improved oil control. Clears most 4.25" stroke steel rods and most 4.090" stroke aluminum rods.

Gen 3 Hemi Road Race Steel Oil Pan

MOR20733

This fabricated steel center sump pan has a 7-quart capacity and is only 6" deep. It features road race trap doors for improved oil control and is compatible with Chrysler B/E-Body applications with a 5.7/6.1/6.4L engine.

Gen 3 Hemi Road Race Aluminum Oil Pan

MOR21167

With an 11-quart capacity and 7-5/8" depth, this fabricated aluminum front sump pan features road race trap doors for improved oil control. It is designed for Chrysler LX Series applications with 5.7/6.1/6.4L and 6.2L supercharged powerplants.

Big Block Chevy Deep Box Marine Oil Pan

MOR21420

With a 12-quart capacity, this entirely fabricated aluminum oil pan is designed for marine applications, including jet drive lake drag boats. The double kickout design features -8AN drain backs, an integrated windage screen, a trap door, and an anti-climb baffle for improved oil control. It is designed for use with 168-tooth flywheels and a 1/4" NPT dipstick.

Universal Big Block Chevy Gerotor Oil Pump Shaft

MOR22079

This high-strength steel oil pump shaft is compatible with gerotor oil pumps MOR22167 and MOR22178. The shaft has an overall length of 10.36" and an extra-long hex end, allowing for resizing to fit standard cam location blocks.

High-Volume Gen IV GM LS Oil Pump

MOR22177

This anodized aluminum oil pump is hard-coated and moves 20% more volume. It has a +10 psi pressure relief spring and is compatible with most Gen IV LS engines, including 5.3/6.0/6.2L applications.

Big Block Chevy Billet Aluminum Gerotor Oil Pump

MOR22178

The Gerotor oil pump for Big Block Chevy boasts larger oil passages and a bigger mounting boss to prevent any vibration-induced failures. It also offers a 25% increase in volume and features an external adjustment for tuning oil pump bypass pressure. This oil pump is designed to fit 8" deep fabricated aluminum oil pans.

Chevy Oil Pump Kits

These kits have a billet aluminum oil pump, mounting shaft, and drive shaft. The mounting boss area is three times larger than the stock unit, which eliminates failure due to vibration. The kit is designed to fit in oil pans that are 8" deep and can clear most 4-3/4" stroke steel rods.

Part No.	Description	Price
MOR22188	SB Chevy, High Volume	
MOR22189	BB Chevy, High Volume, 0.400" Raised Camshaft	
MOR22190	BB Chevy, High Volume, 0.600" Raised Camshaft	
MOR22191	BB Chevy, Stock Volume	
MOR22192	BB Chevy, High Volume	

Tri-Lobe Dry Sump Scavenge Fittings

This 4-bolt square base aluminum fitting uses an external pump to scavenge oil from turbochargers or superchargers. It is available with a -10AN or -12AN male fitting and includes an O-ring, cap screws, and washers.

Part No.	Description	Price
MOR22750	-10AN	
MOR22751	-12AN	

GM LS Engine Oil Filter Adapter MOR23716

This billet aluminum adapter is designed for Moroso LS oil pans with inbound rails to allow the use of an external wet sump oil pump while keeping the OE spin-on oil filter location intact. The adapter has a built-in -10AN port for an external pump and a 1/4" NPT port for a sensor or turbo oil feed line. It comes with a -12AN to -10AN ORB male fitting, 1/4" N.P.T. pipe plug, 22mm filter stem, mounting hardware, and O-rings.

GM LT Engine Remote Oil Filter Adapter MOR23719

This billet aluminum adapter replaces the spin-on filter adapter on Moroso LT oil pans (Part No.# 23766, MOR20520, PN 21151), allowing the remote mounting of the engine filter. It has two -12AN ports, mounting hardware, and O-rings.

Crankshaft Trigger Sensor MOR60060

The transducer has a high-quality zinc-plated steel body that reduces signal interference and improves triggering accuracy. The pickup is protected by non-hardening epoxy for shock and vibration isolation, and features a built-in strain relief to prevent the wires from pulling out. A weather pack kit with connectors, pins, seals, and other components is included to connect the existing harness.

Pontiac 302-455 Valve Covers MOR68477

Fabricated aluminum valve covers designed for Pontiac 301-455 cylinder heads. They feature a billet rail, 3.5" height, non-baffled PCV grommet, and billet filler cap. The large, flat surface is perfect for engraving logos, polishing, and adding a chrome or powder-coated finish.

Aluminum Push-In Valve Cover Breathers MOR68861

This pair of billet aluminum valve cover breathers includes push-in rubber grommets for both stamped and cast valve covers. The internal mesh media separates oil and fits a 1.22" I.D. valve cover hole.

Vacuum Pump Update Kit

Moroso offers update/rebuild kits compatible with original-design vacuum pumps, including MOR22640 and MOR22641. These kits contain all the necessary parts to update older pumps to the current design, including an updated rotor, hardware, vanes, lip seal, shaft/hub assembly, thrust washers, and bearings.

Part No.	Description	Price
MOR97178	Fits MOR22640

Power Steering Box for 1967-87 Chevy C-10 Trucks DSE090216DS

Upgrade any 1967-87 Chevy C-10 truck with a high-performance steering box that can improve its performance and feel. This lightweight steering box has rack and pinion valve technology, a low-friction gear design, and 12.7:1 quick ratio gearing. It is brand new, not rebuilt, and can use the original power pitman arm.

4WD Truck Off-Road Oil Pan Baffle Kit for GM LT Swap HLY302-34

This baffle kit is a direct bolt-in unit for off-road enthusiasts for the HLY302-24 oil pan. It maintains the proper oil level at the oil pickup, preventing pressure loss when driving on rugged terrain.

Terminator X Max GM LS Kits

Terminator X Max ECU kits simplify the wiring and tuning of GM LS engines, eliminating the need for a junkyard ECU. Terminator X Max utilizes real-time fuel learn, high-impedance injector drivers, an integral 1-Bar MAP sensor, (4) programmable inputs and outputs, and 6L80/90 transmission control. The included handheld LCD touchscreen unit employs the Calibration Wizard for tuning and gauge display functions. Includes ECU, engine main harness, injector harness, main power harness, wideband oxygen sensor input/output harness, and related hardware.

Part No.	Description	Price
LS 4.8/5.3/6.0 Truck Engines		
HLY550-917-6	With 24x Crank Reluctor and Multec 2 Injectors	
LS 4.8/5.3/6.0 LS Truck Engines and LS2/LS3		
HLY550-918-6	With 58x Crank Reluctor, 4x Cam Reluctor, and EV6 Injectors	
HLY550-928-6	With 58x Crank Reluctor, 4x Cam Reluctor, Drive-By Wire, and EV6 Injectors	

Sniper 2 EFI Digital Dash HLY553-200X

This plug-and-play device comes with a 5" digital touchscreen display pre-loaded with three easy-to-read layouts for viewing essential system information such as Throttle Position, Manifold Air Pressure, Air Fuel Ratio, Battery Voltage, Engine Coolant Temperature, RPM, and vehicle speed. The display includes the same handheld wizard as the 3.5" display, making tuning and data logging a breeze. It also contains two dash mounting standoffs and a suction cup, allowing you to quickly mount the dash to most flat surfaces in the vehicle without drilling any holes.

Sniper 2 Bluetooth Module HLY558-498

Allows a wireless connection to a vehicle's EFI system using Bluetooth technology. The Sniper 2 EFI Bluetooth module allows real-time monitoring and tuning from any iOS or Android-based smartphone.

CT-2 Saturday Night Special Modified Rear End Package with Tubes, Rotors, and Hubs DMI4.86MODPKG3-2

Geared for the Saturday night racer, this 4.86 ratio quick change rear features a 100% magnesium center and bells with fill level and drain plugs, O-ringed rear cover with heavy-duty bearings, aluminum spool, precision-ground heat-treated lower shaft, and black thermal coating. Kit includes 2.5" GN axle tubes, gun-drilled axles, billet steel hubs, and 11-3/4" x .810" vented rotors, and features a 2" offset.

CT-2 Modified Rear End Assembly DMICT2-4.86

The Bulldog CT-2 quick change rear end features a 100% magnesium center and bells with fill level and drain plugs, O-ringed gear cover with heavy-duty bearings, aluminum spool, precision-ground heat-treated lower shaft, and black thermal coating. Sold without axle tubes.

XR-4 Rear Ends

The Bulldog XR-4 is the newest open tube rear end from DMI. This quick change rear end is designed to ensure that the snout, axle, and rear cover are 100% perpendicular to the lower shaft and side bell face. It features a 100% magnesium castings, an O-ringed aluminum gear cover, and heat treated lower shaft, and includes breather assembly, a non-twist shifter mount, torque tube studs, and an Ease-Align shifter arm. Available in multiple configurations.

Part No.	Description	Ratio	Price
DMIXR4-4.12	Rear End with 1-7/8" Axle Tubes	4.12	
DMI410SPRINTXR4	Rear End with Sprint Lightweight Pro Package	4.10	

Bulldog XR-420i Quick Change Rear for Drift Applications DMIXR-420IV2

Engineered specifically for the drift market, quick change rear features an ultra-strong, aluminum center section with forged aluminum, CNC sculpted side bells, and extremely rigid sub frame mounting locations. Unit is fitted with a Super G ring and pinion, Thor 35-spline aluminum spool, heavy duty lower shafts, forged 1350 series 8.8 front yoke, and 35-spline 930 CV flanges. A six-bolt rear cover is employed to provide superior ground clearance.

Saturday Night Special Modified Rear End Assemblies

The Saturday Night Special line of Modified rear ends feature a 100% magnesium center and bells within inspection and fill level plug, breather assembly, O-ringed rear cover with heavy-duty bearings, aluminum spool, precision-ground heat-treated lower shaft, low-drag seals, and black thermal coating. Available as rear end only without axle tubes, or as a complete package with 2.5" GN axle tubes, gun-drilled axles, billet steel hubs, and 11-3/4" x 0.810" vented rotors.

Professional Series Modified Rear End Assemblies

The Professional Series rears include many of the same components as the standard Saturday Night Special but adds several performance and durability enhancing features. Quick changes include a black thermal coating, REM-finished ring and pinion, gun drilled lower shaft, low-drag seals, Ultralight aluminum spool, Pro Glide treated bearings, and includes 5 quarts of Bulldog Blood gear oil. Available as rear end only without axle tubes, or as a complete package with 2.5" GN axle tubes, gun-drilled axles, billet steel hubs, and 11-3/4" x 0.810" vented rotors.

EZ Series Modified Rear End Assemblies

New, EZ Series Modified rears with light-weight magnesium centers offer exceptional strength, versatility, and simple, bolt-on tube replacement. Shallow aluminum, heavy-duty side bells increase rigidity by nearly 75%. Tubes are retained to the bell with (6) Grade L9 7/16" studs, allowing tube changes in under 10 minutes without removing the rear from the car. Rigid tube collars remain straight and true, even under extreme conditions. Available in both Saturday Night Special and Professional Series configurations. Rear end packages add 2.5" GN axle tubes, gun-drilled axles, billet steel hubs, and 11-3/4" x .810" vented rotors.

NEW PRODUCTS

NOW STOCKING MORE DUROMETERS!

Pullbar Puck

WEHWM360-100-80

Engineered for use with Wehrs Machine puck-style pull bars, polyurethane puck is 2.250" O.D. x 0.750" I.D. x 1.00" tall and has a durometer rating of 80 (purple).

NOW STOCKING!

Dual-Bearing Spring Slider Components

Part No.	Description	Price
WEHWM251-JN-F	Fine Thread Jam Nut, for Fine Thread Spring Slider	
WEHWM251-JNO	Jam Nut O-Ring, Installs between (2) Jam Nuts on Spring Slider	

WEHWM251-JN-F

Steering Shaft Support Bracket

WEHWM26210

Innovative bracket installs in the engine compartment, attaching directly to 1" dia. chassis tubing and secures the steering shaft, providing clearance necessary for virtually any exhaust headers. Bracket accepts a standard, 3/4" steering heim.

High Misalignment Spacer

WEHWM750250HM

Steel spacer is 1/4" long and accepts a 3/4" heim and 5/8" bolt. **NOTE: Measured from end of spacer to the heim; not total overall length.**

19" Steel Non-Adjustable J-Bar

WEHWM4019STL

Heavy-duty steel J-bar lacks the double adjuster for added strength, particularly helpful when subjected to rough track conditions. J-bar has a 19" center-to-center length.

Sway Bar Load Stick

WEHWM414-SB

Specialized tool is used to accurately set and adjust sway bar load. Load stick is wired to a battery-powered load cell, and replaces the right front shock. A WEHWM394 set-up stick, purchased separately, is then installed in place of the left front shock so that sway bar load may then be set. Load stick is adjustable from 13"-21" long. Sold complete with load cell charger and hard case.

Part No.	Description	Price
Related Component		
WEHWM414HC	Hard Case For WM414-7 or WM414-7-R Load Stick	

Weld-On Shock Mount

WEHWM4461750

Shock mount welds directly to 1-3/4" chassis tubing and allows changing shock mounting in 1/2" increments. Sold complete with weld plates and mounting hardware.

SB Chevy "602"/"604" Crate Motor Dip Stick

WEHWM714

Used for checking engine oil level on Chevy "602" or "604" crate motors. Compact and easy to use, green plastic dipstick is just 1-1/4" long.

Triple-Shear Suspension Cage

Allowing for a wider spread between the shock mount and four link bars, triple shear bird cage incorporates the Quick Adjust plate package for the four link bars along with a standard shock plate that allows 5"-8" shock drop. Unit additionally allows custom cage plate configuration to meet the needs of virtually any chassis. Choose from standard or zero index versions. Sold complete with clamp rings. **NOTE: Shock mounts sold separately.**

Part No.	Description	Price
WEHWM200TS	Triple Shear Suspension Cage	
WEHWM200TS-0	Triple Shear Suspension Cage, Zero Index	

Threaded Double-Adjustable Limiter

Double-adjustable limiter provides eased LH and RH suspension limiter length adjustments. Limiter is sold complete with 2" diameter x 1" tall black (70 durometer) or blue (60 durometer) urethane puck.

Part No.	Description	Price
WEHWM499-TA-BLK	With Black (70 Durometer) Bushing	
WEHWM499-TA-BLU	With Blue (60 Durometer) Bushing	

Shaft Checker

WEHWM494

Tool allows quickly checking a variety of shafts for straightness. Includes the same roller design as Wehrs Machine axle checker.

2-1/2" Dual Bearing Spring Slider

WEHWM251-0-2.5

The smoothest, most stable slider currently available, unit is 21-1/2" extended with a fine thread body for 2-1/2" I.D. springs. Rigid, hard chrome shaft features a linear DU bushing and shaft stabilizing internal piston. The spring cup is opposite of adjusting nut and may be quickly removed via a clip, eliminating the need to unscrew the nut to remove the spring. A jam nut style locking system with Torrington bearing allows for fine tuning and prevents the nut from moving while racing. **NOTE: Measurements are 15" collapsed and 21-1/2" extended.**

Raised Adjustable Shock Mount

WEHWM446-1-F

Raised style mount allows fine tuning shock mounting in 1/2" increments. Sold complete with flat surface weld plates and hardware.

Quick Adjust Puck 5/8" I.D.

WEHWM625QA

Designed for use with Wehrs Machine bearing cages, puck eliminates the need for bolt removal, speeding suspensions adjustments.

NEW PRODUCTS

Checkers Driving Suit

Satin, twill Nomex knit fabric one-piece suit features classic, race inspired graphics. Pleated back panel allows unrestricted freedom of movement and improved flexibility. Meets SFI 3.2A/5 specifications. Black only.

QA1

Four Link Kits for 1967-69 GM F-Body

Dramatically improve the ride, handling, and stance of first generation GM F-bodies by replacing the OEM leaf springs with coil-overs and triangulated four-link. Ideal for street or track applications, kit provides +2" to -3" of ride height adjustability, while allowing larger wheels and tires. Choose from kits with single- or double-adjustable shock absorbers. **NOTE: Welding required.**

Part No.	Description	Price
QA1R156-170	With Single-Adjustable Shocks	
QA1R256-170	With Double-Adjustable Shocks	

Rear Sway Bar Kit for 1967-69 GM F-Body

QA152827

Engineered for use with QA1 four-link suspension systems, kit reduces body roll that is often encountered during hard cornering. Sway bar, which has a 7/8" diameter, hugs the rear axle and suspension for a clean appearance. Sold complete with end links and hardware. **NOTE: Must be used in conjunction with a QA1 four-link kit.**

Subframe Connector Kit for 1967-69 GM F-Body

QA152093

Kit joins the front and rear sub-frames, increasing chassis rigidity, thereby improving handling and performance. Tubular steel connectors offer a bolt-in installation, and are sold complete with solid aluminum body mounts and required hardware.

Body Mount Kit for 1967-69 GM F-Body

QA15263

Designed to directly replace the OEM rubber mounts, aluminum units increase chassis rigidity, while reducing flex and body roll. Sold complete with required hardware.

Level 1 Front Drag Kit for 1967-69 GM F-Body

QA1DK22-GMF1

All-in-one, drag race front suspension kit delivers improved launches, consistency, and high speed stability. Includes tubular steel upper and lower control arms, double adjustable Pro Coil system, thrust bearing kit, spanner wrench, tie rod adjuster sleeves, and required hardware.

Mustang K-Member Engine Mounts for LS Engines

QA152115

Designed exclusively for use with QA1 K-members, mounts allow installation of a GM LS engine into late model Mustang.

Level 2 Full Vehicle Handling Kit for 1967-69 GM F-Body

QA1HK42-GMF1

The solution for GM F-body owners that desire to dramatically improve ride quality and handling, while allowing adjustments for shock rebound and compression, ride height, pinion angle, and wheelbase. Includes tubular steel upper and lower control arms, double-adjustable front Pro Coil system, tie rod adjuster sleeves, rear coil-overs, triangulated four-link, coil-over thrust bearings, spanner wrenches, sub-frame connectors, aluminum body mounts, front and rear sway bars, sway bar end links, and necessary hardware. **NOTE: Welding required.**

Proma Star Double-Adjustable Coil-Over Strut Kits

Your Choice -

Versatile kits feature a custom-tailored spring rate and strut valving package for improved handling and performance. Aluminum, double-adjustable coil-overs include independent adjustments for rebound and compression, while allowing ride height adjustment 0"-2" lower than stock. Each bolt-on kit includes struts, coil-over springs, caster camber plates, and necessary hardware. Choose from kits best suited to street, handling, or drag racing.

Part No.	Description
2005-14 Ford Mustang	
QA1HD05-12200	Street, 200 lb. Rate
QA1HD05-12300	Handling, 300 lb. Rate
QA1HD05-14150	Drag Race, 150 lb. Rate
1982-92 GM F-Body

K-Members for Ford Mustang

Your Choice -

Rigid, tubular steel K-members combine the benefits of significant weight savings, increased header clearance, and improved front end geometry. K-members are a direct bolt-on to OEM components and retain the factory wheelbase. Bolt-in engine mounts sold separately.

Part No.	Description
QA1MUK01*	1979-93 Ford Mustang K-Member
QA1MUK02†	1987-04 Ford Mustang K-Member

* Retains OEM track width for 1979-86 Mustangs, and 1987-93 non-V8 Mustangs.
† Retains the OEM track width for 1987-93 V8 Mustangs.

5Q Series Rebuildable Steel Twin-Tube Dry Shock Six Pack Kits

Your Choice -

Ideally suited to do-it-yourself racers or shock rebuilders, kit includes parts to build six new 5Q Series twin-tube large body shocks. Includes gas bags, seal packs, pistons, piston rods, and more. **NOTE: Kits do not include bleed shims and require the proper tuning kit.**

NEW PRODUCTS

DISC BRAKES wilwood

Forged Narrow Superlite 6R Big Brake Front Brake Kit for 1997-13 Corvette WIL140-8922

Combining FNSL6R six-piston calipers and 14" O.D. GT 72 curved vane rotors, kit delivers unsurpassed braking to 1997-13 Corvette along with a variety of early model muscle cars fitted with Ridetech spindles or Detroit Speed suspension. Includes black powder coated calipers, rotors, aluminum rotor hats, caliper brackets, BP-20 brake pads, and necessary hardware.

NOTE: Kit may fit 18" wheels; please refer to the wheel clearance diagram on the Wilwood web site.

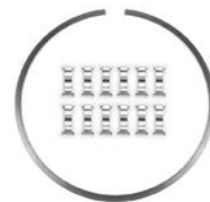

GP200 Left Front Sprint Brake Kit WIL140-16431

Competition-proven kit includes GP200 billet aluminum two-piston caliper, 10.50" O.D. x 0.160" super alloy drilled and scalloped rotor, caliper bracket, dynamic mount rotor plate, and necessary hardware. Dynamic mounting isolates thermal stress and distortion at the rotor mounting points.

Dynamic Lug Rotor Mounting and Snap Ring Kit WIL300-14912

Kit includes (12) rotor wear plates and an internal snap ring retainer to mount one 12-lug, dynamic mount rotor to a hat utilizing Wilwood's dynamic lug mount system.

Master Cylinder Reservoir and Cap WIL330-8315

Replacement reservoir and cap for Wilwood RM 0.8-oz. capacity master cylinders.

BP-28 Smartpad Brake Pads

A medium-high friction, low temperature pad with a flat torque curve and 100°-1,200°F temperature range. Ideal for dirt or pavement racing and track day applications, pads offer medium-low wear characteristics. Sold per axle set.

AutoTec Forged Pistons – Street/Strip

This piston is manufactured using forged side relief, 4032 low-expansion, high-silicon material, making it excellent for street or strip applications. It features CNC precision machined ring grooves for 1.5mm, 1.5mm, and 3.0mm rings, a top ring land gas distribution groove to enhance performance and improve ring seal, and diamond-turned skirts. Wrist pins, wire locks, broached pin oilers and accumulator groove are included.

AutoTec Forged Pistons – Boosted Applications

This piston uses 2618 material and is suitable for most mild-blown or nitrous applications. The valve pockets are machined to accommodate oversized valves and high-lift cams. The ring grooves are critically machined for 1.5mm, 1.5mm, 3.0mm rings. The top ring land also features gas distribution grooves to enhance performance and improve ring seal. It includes 51 Series wrist pins, pin fit, wire locks, broached double pin oilers, and accumulator groove.

Flat Wire Progressive Rate Bump Spring

SWISBS0800VS

Flat wire bump spring provides zero side shearing under full compression, ideal for race teams that aggressively utilize bump stops and require a greater amount of shock travel. Spring has a 2.3" O.D. x 3.00" length, 1.58" stroke, and a progressive rate of 400-800 lbs. Copper powder-coated finish.

Bulletproof Series

3-1/2" I.D. x 18" Tall Coil-Over Spring

SWI180-350-100BP

Robust, resilient, and responsive, Bulletproof Series spring is 3-1/2" I.D. x 18" tall and has a 100 lb. spring rate. Copper powder-coated finish.

NEW PRODUCTS

M-102 Series Gauge Kit for 1973-87 Chevy/GMC Truck NVG73108-79

Kit installs directly in place of the OEM speedometer and gauges, updating the style and functions, while maintaining an OEM appearance. Includes 4-3/8" programmable speedometer, 4-3/8" programmable, 0-8,000 RPM tachometer, 2-1/16" fuel level, temperature, oil pressure, and voltmeter gauges along with necessary senders, and hardware.

CFR Gauge Kits

Well suited to resto-mods or pro-touring builds, direct fit gauge kit features exotic muscle graphics, colors, and modern LED lighting. Includes large diameter, programmable speedometer, 4-3/8" programmable, 0-8,000 RPM tachometer, 2-1/16" fuel level, temperature, oil pressure, and voltmeter gauges along with necessary senders, and hardware. Choose CFR Red or Blue gauge kits.

600 Series Power Steering Box SWE209-08235

Four-bolt style steering box includes an 8:1 ratio and 0.235" valving. Weighs 22.3 lbs.

Rear Yoke Pulley SWE501-30037

Special, fine spline yoke includes a V-belt pulley that allows driving a differential mounted power steering pump.

Steering Coupler SWE301-30142

16.5mm-36 spline to 3/4" smooth.

Steering U-Joint SWE401-51275

3/4"-36 spline to 16.5mm-36 spline.

X-Series Race Car Lift DCLX1008

Top-of-the-line race car lift includes the ability to safely lift and support a race vehicle that weighs up to 4,000 lbs. Lift weighs just 64 lbs. and combines a CNC-machined structure with a dual-action, 12-volt 2,300 PSI hydraulic pump with cylinders and quick disconnect couplers, resulting in reliable, power up/power down operation. Unit is 20" tall in rear, 18" tall in front, and 41" total side-to-side width along with a riser package to compensate for raised RF rail cars. **NOTES: Lift is not compatible with wide frame metric cars. Purchase battery and hydraulic fluid separately. Requires a minimum 12V/350 CCA battery and 3-4 qts. of AW-32 hydraulic oil for lift operation.**

G3 Transponder Package RCVG3XRECHGPK

Package includes necessary components when utilizing a RACEceiver transponder; Westhold rechargeable transponder, charging unit, and pro mounting pouch. Simply charge the transponder and mount it in the car. **NOTE: Does not work with MyLaps.**

TRU-COOL®

LPD Engine Oil Coolers

Innovative, LPD (Low Pressure Drop) oil coolers incorporate a special cold weather passive bypass system that allows cold, thick lubricants to flow more efficiently through the cooler at the top of the system. Once fluids heat up and become thinner, the cooler then directs it through the core for optimal cooling.

Part No.	Description	Price

14-1/2	K1R24-VER-N-145

Cylinder Head Shipping and Storage Container SCR5148

Rotationally molded from polyethylene, container has interior dimensions of 9" wide x 24" long x 6" high, and is large enough to accept most Pro Stock heads. A cinch strap secures the head within the base, while the domed cover bolts securely over a double wall base.

Upper Ball Joint Sleeve Tap COL30834

Required when repairing damaged threads in upper control arms with screw-in ball joint sleeves. Designed for use with sleeves that accept K719/K772 upper ball joints.

"Torque Tough" 49-Spline Solid Sway Bar COL21904

Constructed from high-grade, solid spring steel, "Torque Tough" 49-spline sway bar is 37-1/2" long x 1-1/4" dia., and stepped down to 1" dia. Sway bar is CNC-machined, double heat treated, polished, and zinc coated.

Drift Radiator Module PWRCR-UC-SPR001C

The ultimate cooling solution for a variety of drift applications, dual pass radiator is hand-crafted and tig welded in the USA. Aluminum module is 18-1/2" high x 31-1/2" wide x 6" deep overall, and includes -20AN female inlets and outlets, -12AN drain ports, and twin Spal 14" 500W brushless fans rated at 4790 CFM.

NEW PRODUCTS

TOTAL SEAL PISTON RINGS

Gapless Diesel Piston Rings

Soot contamination can increase engine wear and reduce oil life. Closing the gap on the 2nd ring stops soot contamination and reduces blow-by. Total Seal® Gapless® second rings help diesel engines unleash their full potential, boosting horsepower and torque.

Deck Mount Oil Cooler AFC80278-12

Utilizing an internal oil turbulator and louvered fins for maximum cooling, double-pass oil cooler is fully TIG-welded and includes laser-cut tanks. Cooler is 14.25" x 6.5" x 4.4" overall, with a 1-qt. capacity, -12AN inlet and outlet, and an 1/2" FPT for an oil temperature sending unit.

Lightweight Aluminum Double-Pass Radiator AFC80184NDP-16

Lightweight double-pass radiator measures 26" wide x 19" tall x 1-1/2" wide and is 100% TIG-welded with no epoxy. Optimum fin per inch ratio provides exceptional cooling. Includes a -16AN male inlet and 1-3/4" male outlet. Radiator has a dry weight of 12.5 lbs.

Nitrogen 40cc Gas Cell AFC1001302

Required when rebuilding AFCO nitrogen-filled shock absorbers.

Dual-Port Billet Remote Reservoir

Designed to directly replace leak prone plastic master cylinder remote reservoirs, billet aluminum unit includes (2) 1/8" NPT ports to accept the desired barb or fitting.

Part No.	Description	Price
HOW524361	Dual Port Billet Remote Reservoir	
HOW524371	Standard Plastic Cap for HOW524361 & HOW524360	
HOW524373	Billet Aluminum Cap for HOW524361 & HOW524360	

STOCKING NEW LENGTHS/ANGLES!

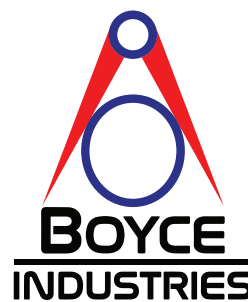

Precision Max Upper A-Frames

Rigid, tubular steel A-frames feature a sealed, dual-row ball bearing for full, bind-free movement, even under severe braking. A-frames listed accept screw-in ball joints and utilize a steel cross shaft with a slot and key design. Key set (HOW22001) must be purchased separately.

Ear Cups with Elite Speakers

ZAMKITEAR003COMEL

Kits allows one- or two-way communication in virtually any helmet. Ear cups include high-quality, 28mm dia. speakers and wiring with 3.5mm stereo plug.

PRO/CAM RACING ENGINE COMPONENTS

Billet Mechanical Fuel Pumps for Stock Chassis

Manufactured from rigid, billet aluminum, pumps are designed to outperform traditional high-performance models. The 7.5 PSI model has a free flow rate of over 200 GPH, sufficient to feed up to 1,200 gasoline-fed horsepower. Stock chassis style pumps have the inlet and outlet next to each other and clocked toward the front of the engine for eased plumbing.

Pumps listed are compatible with pump gas, race gas, E85, or alcohol.

Child 14" Adjustable Containment Seat Kit

KIR35120KIT

Ideally suited to Caged Karts, Dwarfs, Legends, Mod Lites, Street Stocks, etc., 14" child seat is MIG-welded from 0.100" and 0.190" thick 5052 aluminum and features a 18° layback. Three-piece design allows for up to 6" of vertical adjustment. Seat accommodates all head and neck restraint systems along with 5- or 6-point seat belts. Sold complete with black cloth seat cover.

Single Sided Adjustable Pinion Mount

PPM0450

Manufactured from durable, billet aluminum, single sided pinion mount accepts a panhard bar and may be easily adjusted with a ratchet. Black anodized.

Aluminum Adjustable J-Bar

PPM0790-5-C

J-bar features a 5-1/4" drop design and adjusts from 20-1/4" to 21-1/2" long. Constructed from billet aluminum and black anodized finished. Sold complete with CMR rod end and spherical bearing. **NOTE: Length is determined by measuring from the center of rod end to center of spherical bearing.**

Replacement Four-Bar Brackets

Your Choice -

Brackets are manufactured from 1/4" thick billet aluminum and finished in black powder coat. Sold per pair, brackets include a double slot design, and are fully adjustable. Offered for most popular chassis.

Part No.	Description
PPM1000BL	Longhorn Chassis, Left Rear
PPM1000BR	Longhorn Chassis, Right Rear
PPM1005BL	Rocket XR1 Chassis, Left Rear
PPM1005BR	Rocket XR1 Chassis, Right Rear
PPM1007BL	Longhorn Chassis, Left Rear
PPM1007BR	Longhorn Chassis, Right Rear

Longhorn Chassis Mid-Plates

Engineered exclusively for Longhorn chassis, mid-plates are constructed from 1/4" thick billet aluminum, and include both Chevy and Ford bolt patterns. May be adjusted in 1/2" increments. Black powder-coated finish.

Part No.	Description	Price
PPM1316	Longhorn Mid-Plate	
PPM1316-1	Longhorn Mid-Plate, 1" Raised	

Lower Control Arms

Constructed from tubular steel, control arms are designed to accept a screw-in ball joint. Offered for popular chassis. Black powder-coated finish.

Part No.	Description	Price
PPM16516-S1PCRX	Rocket XR1, Left, 16-5/8" Long	
PPM16517-L19	Longhorn, Left, 2019-Up, 17-5/8" Long	
PPM16519-L19R	Longhorn, Right, 2019-Up, Reverse Strut, 19-1/8" Long	
PPM16519-S-DS	Two-Pc. Double Drop Shock Mount Style, 19-1/8" Long	
PPM16519-S-ND	Two-Pc. No Drop Shock Mount Style, 19" Long	

Bearing Shear Plate Birdcages

Your Choice -

Premium quality birdcages are complete with shock mounts, clamp rings, and four-bar bushings. Offered for popular chassis. Black powder-coated finish.

Part No.	Description
PPM2600LH-L	Longhorn, Left
PPM2600LH-R	Longhorn, Right
PPM2600RKT-L	Rocket, Left
PPM2600RKT-R	Rocket, Right

Panhard Frame Plate Assembly for Longhorn Chassis

PPM4000B

Replacement billet aluminum frame plate assembly is a full 1/2" thick and is double slotted. Sold per pair, complete with bungs. Fits Longhorn chassis.

Bent Steel Adjustable Suspension Tube

PPM5815BA

Designed for use with four-bar suspension, adjustable 7/8" round steel tube is 15" long, center-to-center. Sold complete with 5/8"-18 RH and LH rod ends, and adjuster. Black powder-coated finish.

2019-Up Longhorn Spindles

Your Choice -

Manufactured exclusively for 2019-up Longhorn chassis, precision fabricated spindles include 3-1/2" brake mounts and are designed for use with 0.810" thick rotors. Black powder-coated finish. **NOTE: Recommended spindle slug is PPM161-SG-3, purchased separately.**

PPML153-19	Left Front
PPML273-19	Right Front

NEW PRODUCTS FOR 2024!

Black Powder Coated Water Necks

Aluminum water necks fit most Chevrolet V8's. Two-piece design necks swivel 360° to accommodate LH and RH radiator inlets. An O-ring seal and two chrome-plated socket head cap screws are included.

Part No.	Description	Price
ALL30270	90° Neck	
ALL30271	45° Neck	
ALL30272‡	Straight Neck	
ALL30273	75° Neck	

‡ One-Piece Fixed Neck

Black Dollies with Support Tabs

ALL10626

Dollies feature mounting tabs to mount a custom support rod (not included) between the dollies for added support. Dollies are rated up to 2000 lbs. per set and sold as a pair.

Carb Drain/Primer Bottle

ALL40091

Durable plastic 8-oz. squeeze bottle is ideal to assist draining and priming carburetors when making jet changes. Cap has an angled filler tube, with tapered tip that fits easily into the vent tube of carburetor fuel bowl.

Glow-in-the-Dark Utility Jug with Filler Hose

ALL40124

5-gallon utility jug features an O-ring sealed cap and includes a 12" flexible filler hose with a capped end for a secure seal.

Utility Jug Cap, Glow-in-the-Dark

ALL40127

Battery Disconnect Switch Mounting Bracket

ALL60365

Weld-on bracket provides a secure mounting location for most battery disconnect switches so they can be mounted directly to the cage within easy reach of the driver or track safety team in the event of an emergency. The bracket is pre-notched for welding to 1-1/2" round tubing and features a 5/8" mounting hole for most battery disconnect switches or our switch with panel.

Track Mats

High-density foam rubber mat provides added comfort when kneeling or laying on the ground. Mat is oil resistant and can be easily washed without absorbing water.

Part No.	Description	Price
ALL10610	20" x 30"	
ALL10612	28" x 45"	

Wheel Cover Holder

ALL12205

Aluminum holder fastens to trailer or shop wall to keep most wheel covers for 15" wheels within easy reach and organized. Holder is pre-drilled 9" on center for mounting.

8" Wheel/Tire Cover

ALL44255

Canvas cover is ideal for open wheel cars to keep tire out of direct sunlight. Designed for 8" wheel/tire combination.

Air Cleaner Stud Kits

ALL26015

Kit includes all components needed to attach an air cleaner assembly onto a carburetor including a 6" long 5/16"-18 threaded stud, an adjustable threaded stop and an air cleaner nut with a O-ring seal. The adjustable threaded stop allows the air cleaner lid to be secured against the stop without crushing the air filter. **Note: This kit is designed for use on carburetors with 5/16"-18 air cleaner stud mounting bosses**

Part No.	Description	Price
ALL26014	Kit with Aluminum Stud	
ALL26015	Kit with Chrome Moly Stud	

Quick Turn Fastener Tool with Screwdriver Handle

ALL19401

The quick turn fastener tool fits slot head fasteners and reduces the risk of body panel or fastener damage from using screwdrivers for loosening or tightening.
