The new Motion 13.

Delight in the sound of life.

Having a nice chat over a coffee, romping around the garden with your grandchildren or just sitting on the balcony listening to bird song, Motion™ 13 from Signia lets you enjoy the most natural sound experience and superior audio streaming from your TV and smartphone.

A tailor-made hearing experience

Motion 13 offers a variety of fitting and handling options to perfectly meet your wishes and requirements. This way, your hearing care professional can customize your personal hearing solution.

High level of wearing comfort

As a behind-the-ear, or BTE model, the small Motion 13 sits snugly and discreetly behind your ear. Its ergonomic shape makes it extra comfortable to wear.

For a broad range of hearing loss

Mild, moderate or severe hearing loss, Motion 13 tackles all these challenges and gives you back the natural sound of life.

Experience the natural joy of hearing.

Hear the sound of your own voice as nature intended.

Reading a book to a child, having a little chat with your neighbors, looking at holiday snaps with friends - Signia's Motion 13 lets you fully enjoy all of life's wonderful moments.

It lets you perceive your own voice in perfect balance with your environment. This way, you can enjoy the most natural hearing experience and highest hearing performance, whether you're relaxing with a good book or exploring the great outdoors with friends.

Please note:
Features may vary depending on the configuration of the individual hearing aid. Your hearing care professional will be happy to assist you.

Hearing your own voice

Many hearing aid users do not like the sound of their own voice as it sounds loud and unnatural. As a world's first, Signia's Motion 13 solves this: Its **OVP™ (Own Voice Processing)** provides you with a natural sounding own voice combined with optimal hearing of all other sounds for the most pleasant, natural listening experience.

Speech in noise

Thanks to its **Speech Quality**, Signia's Motion 13 enables you to hear speech clearly in all situations through advanced noise suppression technologies. This makes it easier for you to understand your conversation partner, even in very noisy environments such as a restaurant or a conference.

Conversation while moving

The **3D Classifier** of Motion 13 provides advanced automatic control in all situations to let you enjoy the highest hearing performance. To deliver optimal hearing even when moving, the hearing aid settings are automatically adjusted based on the **myControl App's motion data**.

Crystal clear sound

Motion 13's **Sound Clarity** offers the most natural, lifelike sound in all environments. This lets you enjoy crystal clear sound, even in the loudest environments.

Enjoy the full comfort of connectivity.

Enjoy direct streaming of phone calls, music, and TV.

Stream a phone call or message your children left on your mobile or app voicebox straight into your ears. Watch TV with your loved ones and change the volume to suit your wishes - it's no problem with Motion 13 from Signia.

Via the myControl App*, you can stream audio from various sources directly into your hearing aids and control them remotely. All you need is a smartphone.

myControl App

StreamLine TV

StreamLine Mic

miniPocket

Telephone

Stream phone calls directly from your Apple smartphone (and with StreamLine Mic from your Android smartphone) to your hearing aids for complete convenience.

Music

Listen to your favorite music streamed directly into your hearing aids from your Apple device (and with StreamLine Mic from your Android device) for an outstanding sound experience.

TV

With StreamLine TV, audio from your television can be fed directly into your hearing aids. You can easily start streaming and adjust the volume by using myControl App.

Remote control

The myControl App lets you change Motion 13's settings remotely and personalize your hearing aids to suit your individual preferences.

And if you don't have a smartphone, the miniPocket™ also provides highly convenient remote control.

Further facts and figures.

Optional Telecoil

The battery door of Signia's Motion 13 can be equipped with a Telecoil. In places with an induction loop, this helps you understand speakers more clearly. Simply select the T-program wherever you see the sign on the left.

Colors

Motion 13's range of natural colors are designed to match a variety of hair and skin tones. Individualize your hearing aids by choosing from a range of elegant options. Available colors vary depending on the model.

Actual size in cm

Personal care, anywhere.

Your relaxed journey back to effortless hearing is even easier with the myHearing App* for your smartphone. It lets you familiarize yourself with your new hearing aids in as little time as possible. You can follow special listening exercises, consult the user guide and connect to your hearing care professional on the go.

* Compatible with Android and iOS. The apps are free of charge.
