

**Congratulations on the purchase of your FINAL APPROACH® Express Layout Blind!**

**Unpack components from the box and identify all parts before proceeding.**

**Keep these assembly instructions for future reference.**

**Visit the Final Approach website at [www.FAbrand.com](http://www.FAbrand.com) for links to our YouTube channel featuring blind setup instructional videos and more.**

## **PARTS LIST**

**A : Head Rest (1)**

**Verify you have received all parts listed below. If you are missing any parts, please contact Final Approach customer service**

**at [service@fabrand.com](mailto:service@fabrand.com) between 8 a.m. - 5 p.m. CST Monday through Friday.**

## ASSEMBLY INSTRUCTIONS

**STEP 1: Pull blind out of the box and unfold. All the framing parts are included. Once you do that, open the blind up and layout the fabric and the framing parts separately.**

**STEP 2: With the fabric separate from the frame start. Slide the frame behind the headrest at the top of the blind. Make sure that the bent part of the framing is at the top as that is the headrest part of the frame.**

**STEP 3: Open up the frame inside the blind material, headrest toward the top of the blind and underneath the backrest.**

**STEP 4: Attach the loop and buckles around the front of the headrest frame. This can be adjusted and won't allow the headrest frame to move around once set.**

**STEP 5: Attach the two Velcro straps on each side of the headrest at the top corners to secure the framing to the material at the top of the blind.**

**STEP 6: Your blind is complete and can be folded up and packed away. You can leave the headrest set up or push it down flat.**

## **BEFORE HITTING THE FIELD!**

**Set up the blind and get it ready to hunt. Take a bucket of water and add some dirt to it. Take the mud and spread it all over the blind to get the sheen off the new fabric. Let the mud dry and brush off as much as you want.**

## **TIPS FOR IN THE FIELD!**

**Cut your set up time in half with another product that we make. The FA Whoopgrass is a natural raffia fiber dyed in different colors to get a base coat on your blind for any situation. This base coat of concealment can get you ready faster before the birds start to fly.**

## **CARE INSTRUCTIONS**

**Remove excess dirt and mud from fabric using a brush and mild soap and then rinse, using COLD water only from a garden hose. Line Dry.**

**DO NOT MACHINE WASH OR DRY.**

**Any claims must be submitted to the customer service department using the contact information below. All returned products must be accompanied by the original dated receipt and proof of purchase to be considered for repair or replacement.**
