SUPER BOLT

FENDER FLARES

- **LIFETIME WARRANTY !**
- **ROBUST NO DRILL ATTACHMENT**
- **STAINLESS STEEL BOLTS**
- **ELIMINATES VIBRATIONS & PAINT DAMAGE**
- **INTEGRATED MUD FLAP**
- **OEM APPROVED PRE PAINTED 2K SATIN BLACK FINISH**

**AIR DESIGN SUPER BOLT® FENDER FLARES ARE SUPERIOR.
HERE IS WHY:**

No questions asked Unlimited Lifetime Warranty SUPER BOLT®, 100% Stainless Steel!

The ONLY Fender Flares that are installed without any drilling into the body using the Patented SUPER BOLT® attachment method that eliminates ALL vibrations and paint damage!

Air Design SUPER BOLT® Fender Flares integrated Mud Flap contour widens the bottom of the Fender Flare, protecting the vehicle sides from road debris and paint chips.

SUPER BOLT® Fender Flares are thermoformed with high-tech multilayer Black ABS Senosan Polymer from Austria. The top surface is painted at the factory with German OEM approved 2K Satin Black Paint providing ultra UV protection and OEM Finish.

FRONT BUMPER GUARD**

Painted in Satin Black & Silver,
Ready to Install

DOT approved DRL incorporated

Silverado's **Front Bumper Guard** with integrated **Skid Plate** delivers the heart of Off-Road country.

This High End part is manufactured with the most advanced OE materials providing a stunning premium upgrade to the front end of your Truck.

Silverado's heavy-duty, high-impact Front Bumper Guard fits like a glove on the factory Bumper in a matter of minutes without having to drill or cut any section of the vehicle. Each of our Front Bumper Guards include a pair of DOT approved Osram-Sylvania LED DRL Lights, for improved visibility and safety during all weather conditions.

**GM 39A 33
TAILGATE APPLIQUE**

Painted in Satin Black, Ready to Install

Take your Silverado to the next level with this Plug & Play **Tailgate Applique** which provides your truck with an upgraded presence of High End and Sport versions.

Installs in a matter of minutes with perfect fit and no drilling required.

**GM 39A 32
TAILGATE SPOILER**

Painted in Satin Black, Ready to Install

Outstanding sport rear end upgrade

Visually and technically speaking, Silverado's **Tailgate Spoiler** provides a unique level of personalization and improved aerodynamics.

This very unique custom accessory harmoniously complements your Silverados' style and installs on the rear bed door in a matter of minutes with perfect fit and no drilling required.

**GM39A35
CAB WINGLETS**

Painted in Satin Black, Ready to Install

No Drill, ready to install

Give your Silverado roof an instant edgy look with Air Design's **Cab Winglets**. These fine trims offer a unique level of personalization and improved aerodynamics, along with an easy no-drill installation!

**GM 39A1 5
FENDER VENTS (SET OF 2)**

Painted in Satin Black, Ready to Install

Clean and aggressive style

Fender Vents improve engine cooling by letting hot air out. Make your Silverado stand out with their chiseled look reminiscent of those found in trophy trucks.

**GM 39D 10
DOOR ROCKER PANELS (SET OF 4)**

Only fits on Crew Cabs

Painted in Satin Black, Ready to Install

Underbody protection from road debris and mud

Designed and engineered to enhance your Silverados' Styling and Aerodynamics, also provides effective protection from road debris and mud while traversing through the most extreme Off Road and Urban conditions.

They are manufactured with high performance Huntsman™ Polyurethane and top coated with German automotive Satin Black Class A OE Paint Finish. These parts are highly resistant to impact yet very light-weight. No Drill required, perfect fit, ready to install.

Ground Effects Kits (9 Pieces)

This Part number only includes Front Spoiler, Front Air Curtains, Side Skirts and Box Extensions. Other accessories shown here can be purchased separately.

2019-2021 Silverado STREET SERIES

GM39A01 HOOD SCOOP

Painted in Satin Black, Ready to Install
Tri- compound molding manufacturing

Take your Silverado to the next level with Air Design's unique line of high performance muscle cars inspired **Hood Scoops**. Manufactured with our proprietary Overmolding® technology that encapsulates high impact multilayer ABS Senoplast™ with elastomeric Polyurethane that contours to the hood surface for a No Drill, perfect fit.

GM39A23 FRONT SPOILER

Primed and lower areas Painted in Satin Black Finish

Silverado Front Spoiler is inspired in the classic lowered trucks, while improving aerodynamics by redirecting the air toward the ground and away from the truck's underbody. The whole Silverado "Plug and Play" Ground Effects Kit is manufactured only with the best high performance Huntsman Elastomeric Polyurethane polymers for great Flexibility and Strength, Surface Quality, Perfect Fit to the body and Long- Lasting Durability.

GM39A34 AIR CURTAINS (SET OF 2)

Painted in Satin Black, Ready to Install

Racing inspired and crafted with precision, Silverado's Front Air Curtains work harmoniously with the Front Spoiler. Functionally designed to reduce drag and improve aerodynamics, Silverado's Front Air Curtains help to guide air around the wheels, rather than into the wheelhouses.

GM39A33 TAILGATE APPLIQUE

Painted in Satin Black, Ready to Install

Take your Silverado to the next level with this Plug & Play **Tailgate Applique** which provides your truck with an upgraded presence of High End and Sport versions. Installs in a matter of minutes with perfect fit and no drilling required.

OUR DESIGN CENTER & MANUFACTURING PLANT

For almost 3 decades, Air Design has collaborated with different partners in the automotive industry to design, develop, produce and deliver a wide range of accessory solutions molded in thermosets and thermoplastics, aluminum and steel, for exterior and interior applications in passenger vehicles.

By fostering a culture of Innovation and emphasizing the extensive use of the latest technology and composite materials, Air Design is positioned as a clear leader in the automotive supplier partner area.

We consistently deliver impressive Industrial Design and Custom Manufacturing methods to support the most demanding vehicle personalization programs within the OEM segments.

Air Design is a true full-service development partner, offering a broad range of collaboration capabilities, including: Conceptual Sketches, Renderings, Design, 3D Modeling, CAD Engineering, Virtual Reality, Rapid Prototyping, Tooling, Manufacturing, Delivery, Installation, Training, and ongoing Support.

Air Design employs approximately 250 engineers, designers, and plant personnel from over 15 different countries.

A recent expansion into the Aftermarket via Dealer Direct channels and Wholesale Distribution partnerships with industry leaders in the US allows Air Design to call upon its extensive OE experience and increase consumer access to its high-end styling products.
