# SPACECRAFT GRADE TECHNOLOGY

- **LIFETIME WARRANTY!**
- **ROBUST NO DRILL ATTACHMENT**
- **STAINLESS STEEL BOLTS**
- **ELIMINATES VIBRATIONS & PAINT DAMAGE**

No questions asked Unlimited Lifetime Warranty SUPER BOLT®, 100% Stainless Steel!

Patented SUPER BOLT® Installation Method: The ONLY Fender Flares that are installed without any drilling into the body using the Patented SUPERBOLT® attachment method that eliminates ALL vibrations and paint damage!

Air Design SUPER BOLT® Fender Flares integrated Mud Flap contour widens the bottom of the Fender Flare, protecting the vehicle sides from road debris and paint chips.

SUPER BOLT® Fender Flares are thermoformed with high-tech multilayer Black ABS Senosan Polymer from Austria. The top surface is painted at the factory with German OEM approved 2K Satin Black Paint providing ultra UV protection and OEM Finish.

# UNLEASH YOUR ADVENTURE MINDED SOUL

# OUR DESIGN CENTER & MANUFACTURING PLANT

For almost 3 decades, Air Design has collaborated with different partners in the automotive industry to design, develop, produce and deliver a wide range of accessory solutions molded in thermosets and thermoplastics, aluminum and steel, for exterior and interior applications in passenger vehicles.

By fostering a culture of Innovation and emphasizing the extensive use of the latest technology and composite materials, Air Design is positioned as a clear leader in the automotive supplier partner area.

We consistently deliver impressive Industrial Design and Custom Manufacturing methods to support the most demanding vehicle personalization programs within the OEM segments.

Air Design is a true full-service development partner, offering a broad range of collaboration capabilities, including: Conceptual Sketches, Renderings, Design, 3D Modeling, CAD Engineering, Virtual Reality, Rapid Prototyping, Tooling, Manufacturing, Delivery, Installation, Training, and ongoing Support.

Air Design employs approximately 250 engineers, designers, and plant personnel from over 15 different countries.

A recent expansion into the Aftermarket via Dealer Direct channels and Wholesale Distribution partnerships with industry leaders in the US allows Air Design to call upon its extensive OE experience and increase consumer access to its high-end styling products.
