

MELANIE CASEY

How to Determine Your MC Ring Size

Finding the right ring size for you can be difficult! This guide is meant to give you a general idea of your MC ring size before you purchase a sizing kit. Use the steps below to find the best guess for your ring size!

Print this page at 100% scale.
Use a credit card to verify your sizing guide is right.

Note: This page must be printed to be accurate!
The measurements will not be correct if viewed on a screen.

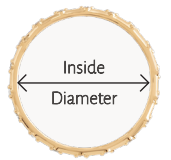

Match this line to the width of a credit card.

Step 1:

If you already have a ring that fits well, start with that! If not, cut a piece of paper and wrap it like a ring around your finger. A good fit is not too hard to get over your knuckle, but also won't fall off if you shake your hand upside down.

Step 2:

Line up your ring (or paper ring) on the circles below until you find the one that aligns with the inner edge of your ring. Make sure you're looking at the inside diameter, not the outside!

Step 3:

Now that you have a good idea of your ring size, head back to melaniecasey.com and use this size to purchase your Perfect Fit Sizer kit. We'll send you a set of three metal sizers so you can ensure the perfect fit for your new Melanie Casey ring.

If you have any questions or would like some guidance on sizing, please reach out to our Customer Care team at questions@melaniecasey.com. They'll be happy to help!
