

TL4-RR

Reducer Ring for 4" RETINA

Features

Body

The body is constructed from stamped steel for rigidity and finished with UV stabilized paint to match fixtures. The included silicone gasket allows the ring to maintain wet location rating on compatible fixtures.

Mounting

Includes two spring loaded clips to attach to any ceiling material. Compatible with 5" and 6" nominal hole cut sizes.

Compatibility

These reducer rings are compatible with all 4" RETINA fixtures.

Description

This reducer ring is used with 4" RETINA fixtures to allow for installation into 5" or 6" hole cut sizes.
