ARISE Relationship Audits

Participate & Remember

For the past 25 years, ARISE Motivational posters and, more recently, ARISE Positivity Cards have been incorporated in ARISE curricula and staff training programs. The graphic below is an example of why ARISE posters and Positivity Cards used during group sessions make a memorable and lasting impact on the mind. ARISE programs are also amazingly efficient at relieving boredom for those with short attention spans.

After Two Weeks, We Tend to Remember...

They Remember!

When participants are given the opportunity to take part in group discussions and offer their opinions relating to the subject or meaning of a particular ARISE Poster or Positivity Card, they not only improve their understanding of the topic, they also enhance their self-confidence and ability to express themselves. Most importantly, they remember! It's all good.
