The Next Generation of Portable Oxygen

Its ground-breaking size and battery life have never been seen before at this high of an oxygen dose, and it is setting the standard for portable oxygen concentrators. OxyGo NEXT has user-replaceable batteries, sieve beds and an easy to read LCD display with simple controls. And it can be charged at home or on the go—giving you the freedom to embrace what's NEXT!

OxyGo NEXT Comes With:

- Standard, 8-cell battery
- Nasal cannula
- Bluetooth technology
- DC car charger, AC wall charger
- Carry bag with padded, adjustable strap
- With Bluetooth technology and the **My OxyGo App**† you can troubleshoot, check battery life, oxygen purity and more with the touch of a button!

Designed to Follow You Anywhere!

OxyGo portable oxygen concentrators (POCs) are lightweight medical devices that can make the medical oxygen your doctor prescribed from the air around you. With OxyGo, you never need to worry about running out of oxygen and you don't need to carry heavy tanks!

OxyGo is different from other POC brands because the units show you exactly how much time you have left on the battery. Plus, you can change the battery easily and use it at the same time—either in the car or at home!

All OxyGo POCs are clinically validated to be used 24/7, so they can supply the medical oxygen you need at home or on the go!

* Double cell battery, setting 1. ** Flow setting 2.

† Available on OxyGo FIT POCs produced after 2/19 and OxyGo NEXT.
