HOW TO PLAY

- 1** You'll need an even number of people to play.
- 2** Get into teams of two. Designate a blue player and green player for each team and use any sheet of paper to write and share answers.
- 3** Someone draws a card from the deck and reads the question aloud. If the question card is blue, that question is about the designated blue player (and vice versa for green). Both teammates answer every question.
- 4** Everyone writes their answer in secret, trying to come up with the same answer as their teammate.
- 5** One pair at a time, players flip over their answer sheet simultaneously to see if they have a matching answer. If the answers match, that pair gets a point.
- 6** Keep score on the top of your answer sheet.
- 7** First pair to 7 points wins.
