HOW TO PLAY:

1. The funniest person draws a card first. They are now the Joker. The Joker silently reads the card to themselves.
2. The Joker then tells the group who they are going to target. The Target is the person they are trying to get to laugh.
3. The Joker now has 30 seconds to do whatever is on the card, doing their best to make the Target laugh. Everyone else (including the Joker) is allowed to laugh.
4. If the Target laughs, they drink and the Joker keeps the card and gets a point. If the Target doesn't laugh, the Joker drinks and the Target keeps the card and gets a point.
5. The person to the Joker's left now becomes the new Joker. The new Joker draws a new card and picks a new Target. The same person can't be targeted twice in a row!
6. First to 7 points wins.

** The Joker can always pass on their turn if they don't want to do what's on the card. They should take a sip of shame if they choose to pass.*

You Laugh You Drink® (YLYD) can be played with alcoholic beverages, with non-alcoholic beverages, or with no beverage at all. If you choose to play YLYD with alcoholic beverages, you should be of legal drinking age and drink responsibly.
