

## Drive Top 25KG

If your driveway or path is looking a bit sad and worn and needs a bit of a lift, give it a quick and easy make-over using Drive Top.

- + Dramatically improves the appearance of your driveway and helps protect it from the elements.
- + Strong enough to drive a car over without cracking or breaking up
- + Really easy to use - no primer required
- + Asphalt can be flexible but don't worry because this is flexible too and won't crack!
- + Can be walked on after 24 hours and driven over after 2-3 days (depending on drying conditions)
- + Low odour, water based acrylic - suitable for outdoors only, on concrete or asphalt
- + Matt, finely textured surface

### Why

It's easy to forget about your driveway or path until it looks old and worn which can then lead to cracking, so to keep it looking good simply apply a couple of coats of Drive Top. Drive Top, a matt, water based acrylic coating is a quick and easy way of protecting and sealing concrete or asphalt against the elements.

Drive Top has excellent UV resistance. Sealing the surface before the winter sets in prevents it deteriorating with snow and ice.

If your driveway has minor imperfections 2 coats of Drive Top will help cover them up, but if the surface is very badly worn with deeper patches here and there, you can sort that out by applying multiple coats - there is no limit to how many coats you can apply, you just need to make sure that Drive Top has dried between each layer. Deep holes can be repaired using our Epoxy Repair Mortar which is also ideal for making good vulnerable edges.

### Prepare It

Before you start you will need to ensure that the surface is clean and dry. If there is oil, grease or other contaminants then treat it first with our Oil & Grease Remover. If your floor has been painted before, make sure the old paint is not flaking. It's best to lightly abrade it, as this will remove any weak areas and provide a slightly rough surface for Drive Top to bond to.

### Apply It

Give it a good stir, pour it onto the floor in ribbons and spread it out with a roller. Two thin coats is all it usually takes to give the driveway a new lease of life, but you may need further applications to help cover badly worn patches. Each coat can usually be applied 16 hours after the last coat depending on drying conditions.

It covers well in two thin coats, so don't be tempted to apply it too thickly in any one go as this can actually cause a delay in the drying process and may lead to cracking.

If you are using Drive Top outside, choose a dry day when rain is not forecast. Don't apply if the temperature falls below 10°C or goes above 30°C.

**Note:** Drive Top is not recommended for use on Stamped/Imprinted concrete, etc. These surfaces are too smooth and non-porous for Drive Top to bond sufficiently.

### You'll need

- 9" Roller & tray
- 5" Paint Brush

These products are available on our website and can be shipped with your order for Drive Top so you can get the job done quickly.

### Dry It

Within 24 hours of application Drive Top can be walked on and driven over after 2-3 days (these times will be extended when the weather is cold, damp or humid).

### Cover It

Covers approximately 15m<sup>2</sup> at 1mm thick.

### Important

Drive Top can be applied up to a maximum of 1mm in one application. If you need to apply it thicker than that, simply apply another coat as soon as the first coat has dried.

Drive Top is unsuitable for heavy vehicle use such as commercial type car parks. It is intended for domestic traffic only.

Do not dilute with water.

### Clean It

Clean brushes and rollers in warm soapy water before Drive Top starts to dry.

### Store It

The shelf life of Drive Top, if unopened, is one year.

Do not allow to freeze.

### Disposal and Safety Information

Please see the Material Safety Data Sheet at [www.paintpeople.co.uk](http://www.paintpeople.co.uk) for safety information

### Availability

Drive Top is supplied in 25kg containers.

Available from [www.paintpeople.co.uk](http://www.paintpeople.co.uk)

### Colour Range

Black

Dark Grey

Whilst great care is taken with the colour samples shown, no guarantee can be given that they represent exactly the colours offered.
