

**CarbonLite™**

**VB7222 CarbonLite™ Composite**

At 17#, the lightest weight competition volleyball post on the market making it perfect for facilities where set up is frequent. The 3" outer post and telescoping inner post are constructed of computer wound carbon fiber resulting in a superior weight to post rigidity ratio. Fits all manufacturers' 3" floor sockets.

**LIGHTEST WEIGHT**

**VB7222 MATCH STATS**

Adjustable foot	Yes
Free lettering on padding	Yes (see chart)

"Our Division I program is a perennial National Championship contender, and we work hard to provide our players with superior equipment. As a longtime user of Bison Centerline Elite Aluminum Systems, we thought we had the best... that was until we discovered CarbonMax. Our equipment manager loves the light-weight design that doesn't compromise on rigidity. The ability to adjust the net height with the turn of a crank without loosening the net is an added bonus."

**John Cook** Head Women's Volleyball Coach, University of Nebraska  
2015 NCAA Division I Champions
