

## Product Overview

The **Dirt Medic™ Infield Drag & Groomer** is specifically designed for use with garden tractors, light utility vehicles and ATV's to fill and level infields while still maintaining the durability of larger machines. The **Dirt Medic™** has a wide 4 foot grooming path and the 5 foot brush kit will cover even the tire tracks left behind.

### Features

- **Towing wheels** - Two, 4 ply 12 inch diameter pneumatic tires on 410/350 x 6 wheels easily lower lift the unit for towing both on and off the field.
- **Cutting path** - 48 inch wide, 0-2 inch adjustable for depth and cutting angle.
- **Adjusting wheel** - Hand operated adjusting wheel controls and cutting depth simultaneously.
- **Harrow bar** - our harrow bar has eight replaceable hardened steel 5/8" square spikes.
- **Ballast Trays** - Two trays, each sized for standard cement blocks.
- **Finishing Brush** - 5 foot brush leaves a professional smooth surface.

### *Highest Standards*

With the **Dirt Medic™** Hand operated adjusting wheel, control angle and cutting depth simultaneously.

**Easy to use** – Easily adjust cutting angle and depth without tools.

**Fast** – Quickly level infields and fill in low spots.

**Tough** – American Made using all welded steel construction and quality components.

**Reliable** – Backed by a 18-month warranty the **Dirt Medic™** will give years of maintenance-free service.
