PROTECTING LEGACY

Over 185 years old,
five generation family-owned brand,
crafting the spaces where legacies live.

LEFT: PHILIP WOLF IV

Our legacy...

1834

Philip Wolf I, a successful German silversmith, discovered that his silver pcs sold better when presented in beautiful boxes. As he began selling more boxes than silver, he refocused his craft thus marking the beginning of WOLF.

1962

Over time, his highly automated factory employed over 300 people; was recognized as the largest manufacturer of jewellery boxes and display materials for all of Great Britain and much of Europe.

1895

Then came his son Philip Wolf II, who convinced his father to move the business to Malmö, Sweden. As time passed, his sons, Ernst and Philip II, proudly continued the tradition of box making.

1988

With the economy and business flourishing in England, the time was right for the Wolf family to assume the biggest challenge they had ever undertaken: tackling the USA and Canadian markets. It was up to Simon Philip V, with guidance from his father Philip IV, to persevere and continue to expand and diversify the company.

1930

Philip Wolf III continued to expand the Swedish factory into its third generation of box making. Progress was slow but steady and then, in 1962, his first son, Philip Wolf IV, immigrated to England to open a new factory.

TODAY

The Wolf family legacy proudly continues, focusing on innovative designs, technological advancements, the pursuit of the perfect design and the protection of your legacies.

Your legacy...

As a five-generation family company, we understand that extraordinary objects are representations of extraordinary moments in life

Since 1834, the WOLF mark has been a symbol of decades of innovation and the pursuit of the perfect design

We believe for a legacy to endure it must be nourished and upheld

Every day in beautiful WOLF cases around the world, centuries-old treasures live side-by-side with exquisite new designs

We are dedicated to honouring people's stories and the priceless jewellery and timepieces they entrust to us

Protect Your Legacy with WOLF

PATENTED TECHNOLOGY

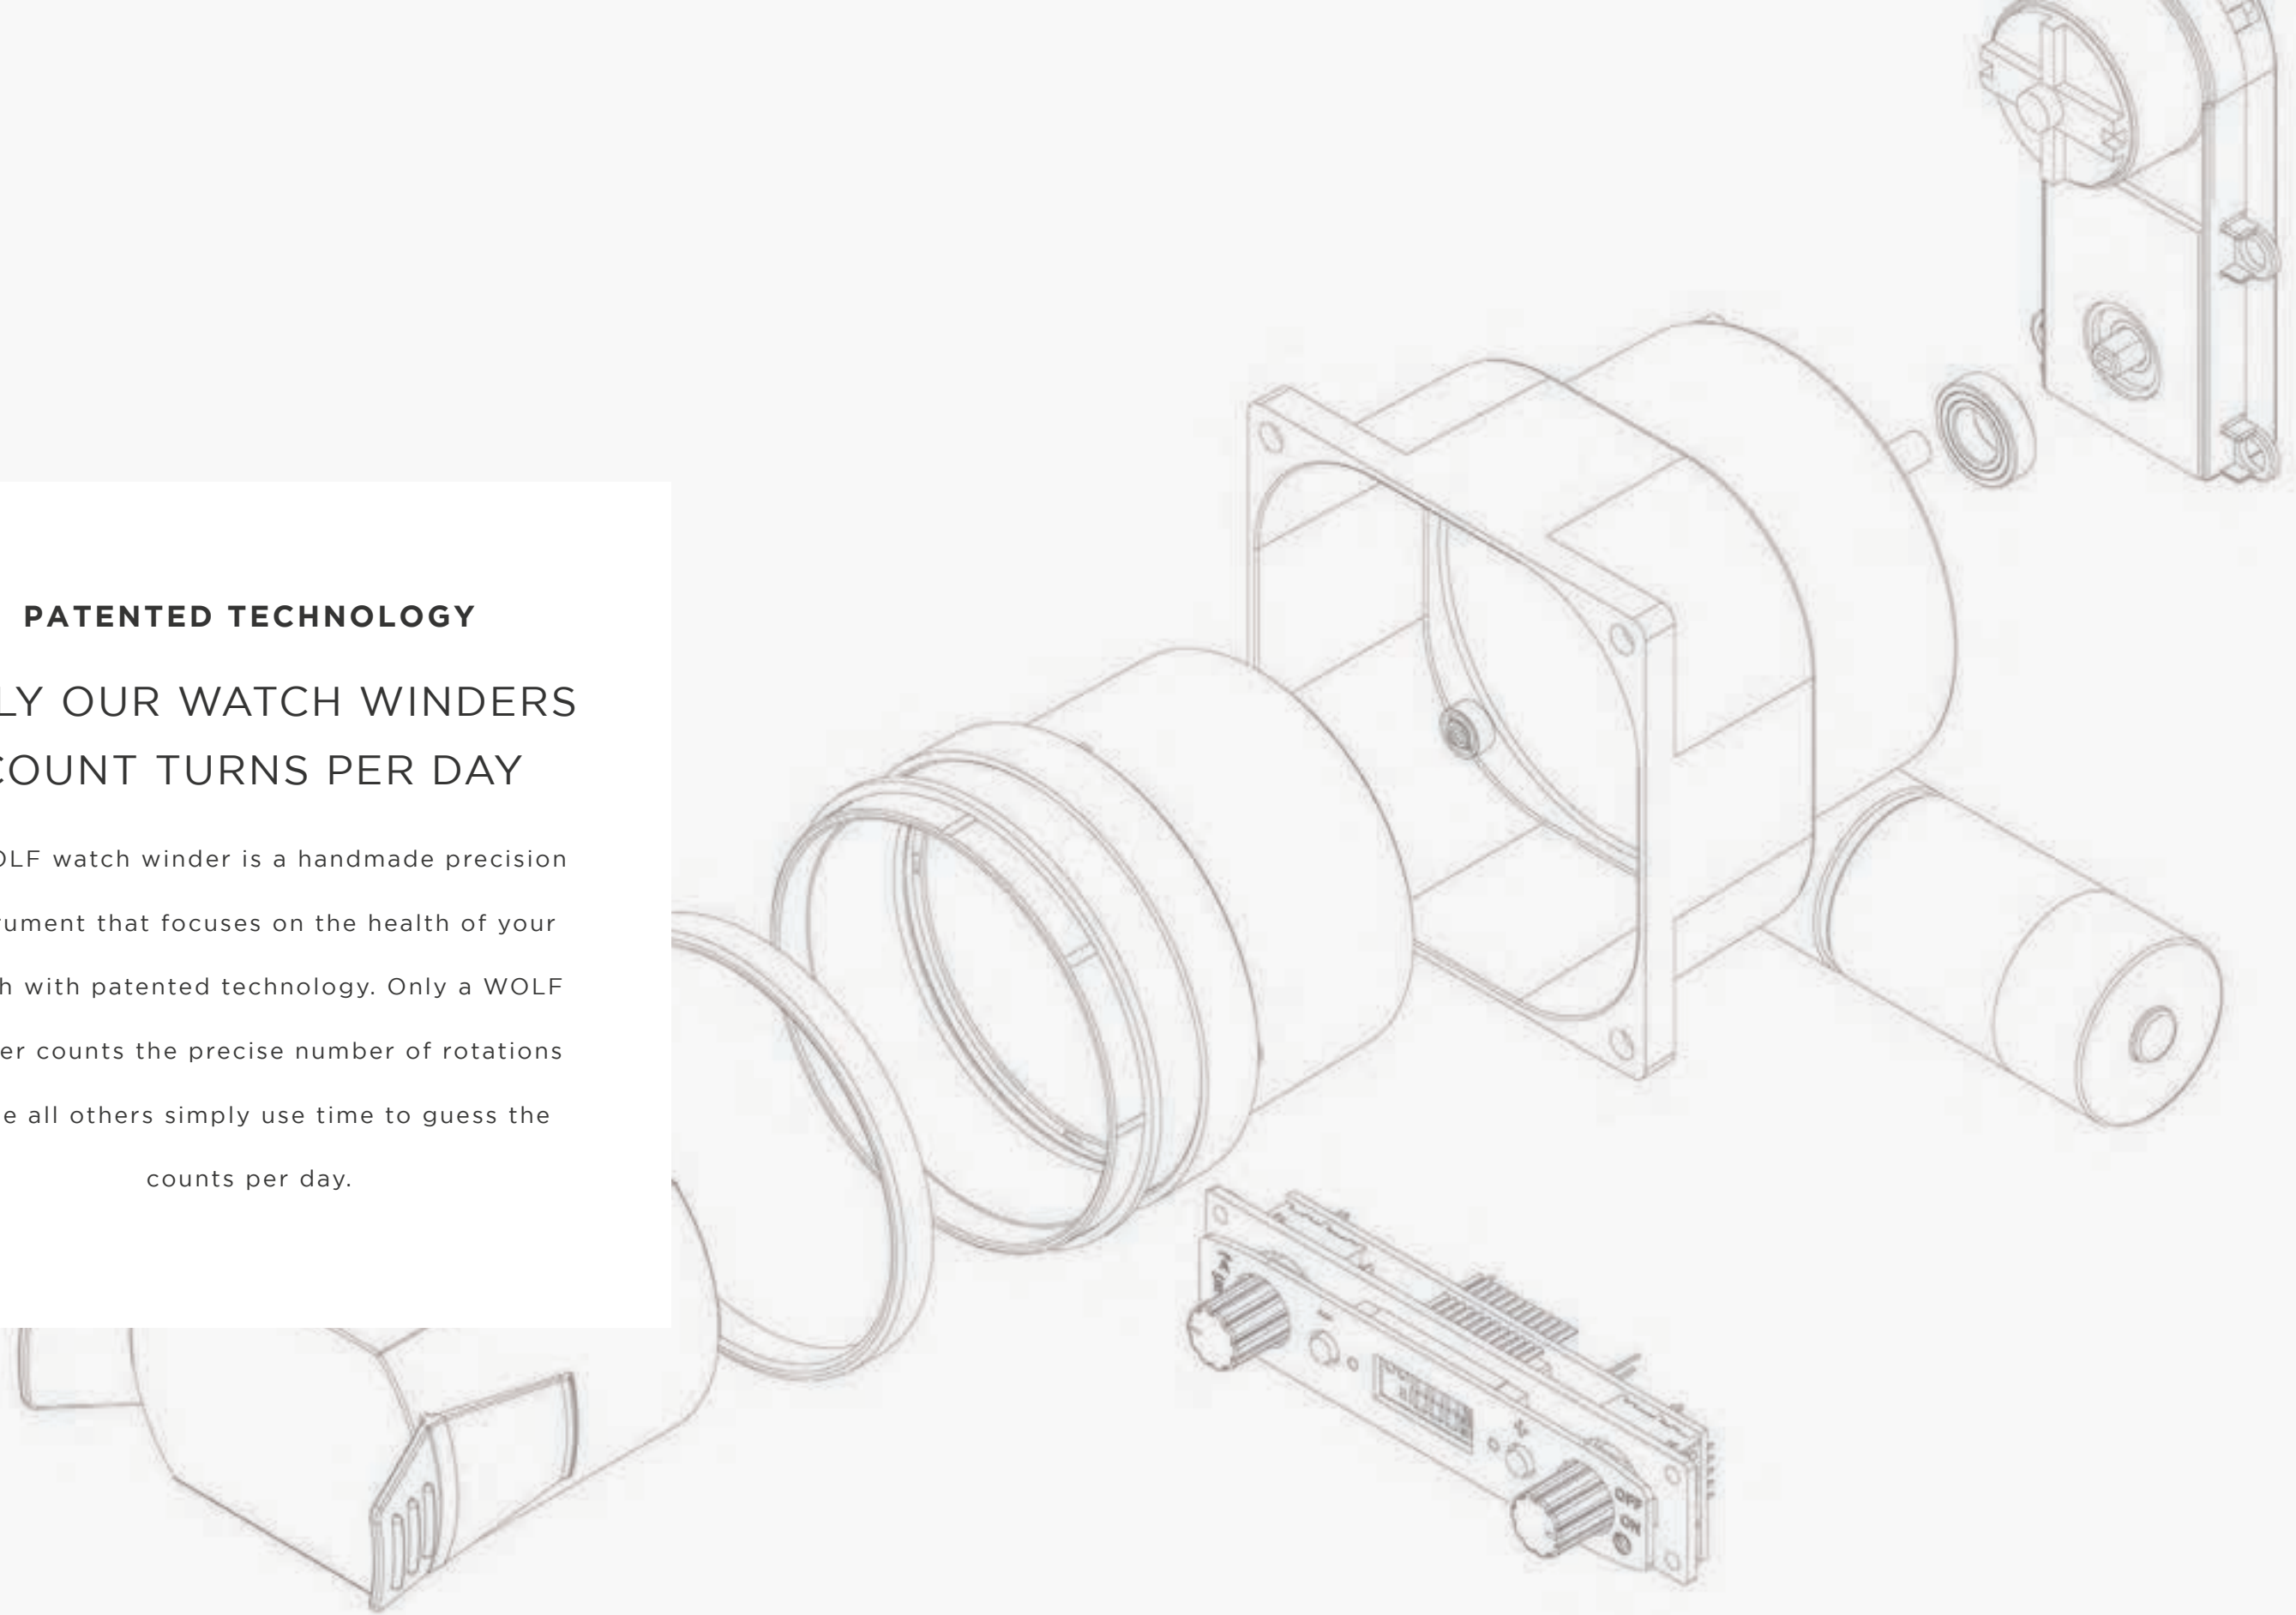

OUR JEWELLERY BOXES FEATURE LUSTERLOC™

Jewellery begins tarnishing with air contact and our patented LusterLoc™ formula neutralises the process. LusterLoc™ protects your jewellery for up to 35 years.

PATENTED TECHNOLOGY

**ONLY OUR WATCH WINDERS
COUNT TURNS PER DAY**

A WOLF watch winder is a handmade precision instrument that focuses on the health of your watch with patented technology. Only a WOLF winder counts the precise number of rotations while all others simply use time to guess the counts per day.
