### **Engineering and SW for RO/RI LED hanging bars**

LED screen hanging bar VDHP500R and VDHP1000R has the following specifications and conditions of use.

#### **SW Limits**

Number of cabinets that can be supported is **6** cabinets OR **10** cabinets if backing plates are used.

#### **Conditions of use**

1. Must be slung or clamped via means of D Shackles or lighting clamps with ratings exceeding 300Kg SWL
2. Must be hung level in both X and Y plane
3. 1m bars do not have any more capacity than 0.5m bars
4. External use of the screen requires backing plates to be used regardless of size to ensure load limits.
5. Support at the bottom of the screen is required in external use to ensure screen does not sway in the wind and that hanging bars are maintained level.
