

# LEMON TREE

## Lemon Disinfectant - Commercial Grade

### PROPERTIES

**Lemon Tree** is ideal for disinfecting and reodorising toilets, washrooms, shower and locker rooms, hard floors, rubbish bins, benches and grease traps of public buildings, offices and similar institutions, hotels, motels, restaurants, public transport, etc.

**Lemon Tree** removes odours by killing the bacteria which cause them. It is an effective disinfectant which achieves a high level of disinfection.

### PHYSICAL DATA

<b>Appearance :</b>	Mobile Liquid
<b>Color :</b>	Opaque Yellow
<b>Odor :</b>	Fresh Lemon Fragrance
<b>Solubility :</b>	Mixes with water in all proportions
<b>pH :</b>	6.0-8.0
<b>Boiling Point :</b>	Not specified
<b>Specific Gravity :</b>	1.00-1.01 at 20°C

### DIRECTIONS FOR USE:

For general use as a reodorant and for cleaning, dilute 1 part in 40 parts of water. As a general rule for more residual fragrance use cold to warm water; for greater cleaning power use warm or hot water.

For disinfection dilute 1 part in 20 parts water. Do not mix with soaps or detergents based on anionic surfactants, which will lower disinfecting efficiency.

Lemon Tree has a powerful and pleasing fragrance of lemon peel which combats objectionable odours from toilets, garbage bin, drains, etc., and prevents mustiness by spreading its clean freshness throughout buildings, halls, theatres, etc.

Lemon Tree can be used as a cleaner or disinfectant or reodorant and in hot or cold water thus giving versatility in use.

### ACTIVE INGREDIENTS:

Biodegradable surfactants, Quaternary Ammonium Compounds

### PACKSIZE:

5L, 20L

**Consult your Cobalt Blue Representative for specific use instructions and recommended dispensing equipment. For safety directions and first aid information, consult the Safety Data Sheet (SDS) or product label.**
