

# MAGIDET

## Fast Drying Sink Dishwashing Detergent

### PROPERTIES

**Magidet** is a new concept in manual dishwashing. Besides the fact that it is excellent in removing fats and greases, glasses and dishes will dry within seconds due to a special formula that will make the water sheet from the surface. Hence preventing any spotting, but instead leaving a shiny sparkling dry surface.

An ideal detergent, effective in hard, soft or salt water, for home, sink, washing machine, woollens and coloreds.

Cleaning the car and general cleaning of dirty, greasy surfaces. Ideal for light cleaning of lino and terrazzo.

### PHYSICAL DATA

<b>Appearance :</b>	Viscous Liquid
<b>Color :</b>	Yellow
<b>Odor :</b>	Fresh Lemon Fragrance
<b>Solubility :</b>	Mixes with water in all proportions
<b>pH :</b>	6.0-7.0
<b>Boiling Point :</b>	Not specified
<b>Specific Gravity :</b>	1.01-1.02 at 20°C

### DIRECTIONS FOR USE:

For washing up, use at the rate of 3-5mL per litre of water depending on the degree of soiling. Place in sink **FIRST**. Alternatively, wash the dishes with a sponge by applying only a small amount of **Magidet**. Rinse off with clean water and leave to dry on drying rack. The water will sheet off the glasses and dishes within a few seconds.

For general cleaning, use at the rate of 5-10mL per litre of warm water depending on the degree of soiling. Do not overuse.

### ACTIVE INGREDIENTS:

Biodegradable surfactants

### PACKSIZE:

5L, 20L
