Note: Please charge your CPP 7500 JumPack completely prior to using it for the first time.

When charging a device the number of lit LEDs may decrease while the JumPack is in use. The battery capacity indicator cannot accurately measure the capacity during rapid charging. To confirm the real battery capacity, disconnect the device being charged and press the Power/Flashlight button on the top of the unit with no device connected. The blue LEDs will show the remaining battery capacity.

Battery Status Indicator LEDs
- 4 LEDs on: 85%-100% charge
- 3 LEDs on: 65%-85% charge
- 2 LEDs on: 40%-65% charge
- 1 LED on: 10%-40% charge
- 0 LED on: 0%-10% charge

IMPORTANT SAFETY INSTRUCTIONS

Charge the JumPack fully prior to use. WARNING: Keep the unit clear of fire and water.

WARNING: Shock Hazard. Keep away from children. Do not immerse objects into the jumper cables port/jack, the USB output port, or the DC input jack. Do not expose this product to water, rain, steam, condensation, or spray. Do not open the JumPack to replace the internal battery. No user replaceable parts are inside the JumPack.

WARNING: Explosion Hazard. Do not use this product where there are flammable fumes or gases, such as in the bilge of a gasoline-powered boat, or near propane tanks. Do not use this product in an enclosure containing automobiles type acid batteries.

The jump start cable clamps must be connected positive to positive (red clip to battery (+)) and negative to negative (black clip to battery (-)). A reverse polarity connection (positive to negative) may cause damage to the JumPack and/or create a fire hazard. Always disconnect the jump start cables' red and black clamps' metal contacts to touch each other or another common metal conductor. This could cause damage to the unit and/or create a fire hazard. Always disconnect any jumper cables from the JumPack after each use and store separately. The jump start feature is designed for short term operation only. Turn the ignition key to off for more than 3 seconds at a time. Operating the jump start feature for more than 3 seconds may cause damage to the unit. Allow the JumPack to cool down for at least 1 minute after each jump start attempt.

CAUTION: Operating temperature Do not expose the JumPack to temperatures over +115°F (+45°C) or under -14°F (-10°C). Using the JumPack at high or low temperatures may reduce the internal battery capacity and life expectancy. Note: In extreme cold weather conditions, please bring the JumPack indoors for best results.

Precautions when operating with batteries
WARNING: Explosion and fire hazard 1. Follow all instructions published by the battery manufacturer and the manufacturer of the equipment in which the battery is installed.
2. Make sure the area around the battery is well-ventilated.
3. Never store or allow a spark or flame in the vicinity of the engine or batteries.
4. Be careful not to drop a metal object on the battery or allow a metal tool to simultaneously touch the positive and negative cable ends or terminals.
5. Remove personal metal items such as rings, bracelets, necklaces, and watches when working with batteries. Batteries produce a short-circuit current high enough to weld a ring or other similar objects to metal, causing a severe burn.
6. If you need to remove a battery from an AC home outlet or with the unit off, always remove the negative terminal from the battery first. Make sure all accessories are off so you don’t lose an ear.
7. Someone should be within range of your voice, or close enough to come to your aid when you work near batteries.
8. Be careful not to drop a metal object on the battery or allow a metal tool to simultaneously touch the positive and negative cable ends or terminals.
9. Keep the unit clear of fire and water.

Usage of batteries
The CPP 7500 JumPack™ portable PowerPack starter is designed for short term operation only. Operating the jump start feature for more than 3 seconds may cause damage to the unit. A reverse polarity connection (positive to negative) may cause damage to the JumPack and/or create a fire hazard. Always disconnect the jump start cables' red and black clamps' metal contacts to touch each other or another common metal conductor. This could cause damage to the unit and/or create a fire hazard. Always disconnect any jumper cables from the JumPack after each use and store separately. The jump start feature is designed for short term operation only. Turn the ignition key to off for more than 3 seconds at a time. Operating the jump start feature for more than 3 seconds may cause damage to the unit. Allow the JumPack to cool down for at least 1 minute after each jump start attempt.

Battery Status Indicator LEDs
- 4 LEDs on: 85%-100% charge
- 3 LEDs on: 65%-85% charge
- 2 LEDs on: 40%-65% charge
- 1 LED on: 10%-40% charge
- 0 LED on: 0%-10% charge

The JumPack is self-contained and not consumer replaceable. Battery should be disposed of properly when it no longer holds a charge. Proper charging practices will increase the life of the batteries. For information on battery recycling call toll free 800-822-8837.
Starting a Vehicle:

1. Make sure the JumPack is fully charged.
2. Turn off all the accessories on the vehicle.
3. Disconnect the battery cables from the JumPack.
4. Connect the RED clamp to the POSITIVE post of the battery.
5. Press the Power/Flashlight/Battery capacity button for 3 seconds to turn on the LED flashlight. There are 4 flashlight modes: steady, strobe, S.O.S. and Off.
6. To charge a 5V USB device, connect the device's cable to the JumPack's USB output. The blue LEDs will indicate that the device is charging.
7. Turn off all the accessories on the vehicle.
8. Disconnect the battery cables from the JumPack.
9. Leave the vehicle running for a few minutes before turning the ignition off.

If the vehicle does not start on the first try, wait for 1 minute before trying to start the vehicle again.

FCC Statement:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Limited 1-Year Warranty:
For Products Purchased in the U.S.A.:
Cobra Electronics Corporation warrants that its Cobra CPP-7500 JumPack USB device will be free from defects in workmanship and materials for a period of one year from the date of first consumer purchase. This warranty is only effective for the first consumer purchaser. If this product is determined to be defective, Cobra will, at its option, repair or replace the product free of charge. This warranty does not cover defects due to normal wear and tear, or defects resulting from accident, misuse, abuse, alteration, modification or acts of God.

Exclusions: This limited warranty does not apply:
1. To any product damaged by unauthorized service or repair.
2. To the event of: (a) the product, or (b) all included warranties or services, if any, are provided by a third party, or if the product is tampered with.
3. If the serial number has been altered, defaced or removed.
4. If the product is not handled outside the U.S.A.
5. If the product is used in a commercial application or if the product is used in a manner not specified in the owner's manual.
6. If the product includes a mechanical reproduction or carbon of a sales receipt. Make sure your written proof of purchase is a hand written document, to avoid the possibility of it being lost.
7. If the product is used in a commercial application or if the product is used in a manner not specified in the owner's manual.
8. If the product is used in a commercial application or if the product is used in a manner not specified in the owner's manual.
9. If the product is used in a commercial application or if the product is used in a manner not specified in the owner's manual.

For Products Purchased outside the U.S.A.:
You will be responsible for all import duties, taxes, and other charges levied by the importing country.

Product Service:
For any questions about operating or installing this new Cobra product, or if parts are missing, Please call Cobra before sending the product. This will ensure the fastest turn-around time on any repair. If Cobra feels that the product be to the customer's advantage, the following must be furnished to have the product serviced and returned:

1. Warranty Repair include some form of proof-of-purchase, such as a mechanical reproduction or carbon of a sales receipt. Make sure your written proof of purchase is a hand written document, to avoid the possibility of it being lost.
2. For products purchased in the U.S.A., Cobra Electronics Corporation, USA.
3. For products purchased outside the U.S.A., Cobra Electronics Corporation, USA.
4. Cobra is the manufacturer of products bearing the Cobra Electronics Corporation, USA.
5. Product Proposition 65 Warning:
This product contains a chemical known to the State of California to cause cancer and birth defects or other reproductive harm.
